The global market research services market is expected to grow from \$71.86 billion in 2020 to \$75.66 billion in 2021 at a compound annual growth rate (CAGR) of 5.3%.

The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$90.79 billion in 2025 at a CAGR of 5%.

The market research services market consists of the sales of market research services and related goods by entities (organizations, sole traders and partnerships) that plan, develop, create and manage activities for studying and analysing markets according to client's specifications. Market research establishments undertake processes where human capital is the major input.

About City and Venue

Dublin is the capital and largest city of Ireland. Situated on a bay on the east coast, at the mouth of the River Liffey, it lies within the province of Leinster. It is bordered on the south by the Dublin Mountains, a part of the Wicklow Mountains range. It has an urban area population of 1,173,179, while the population of the Dublin Region (traditional County Dublin) as of 2016 was 1,347,359. The population of the Greater Dublin Area was 1,904,806 per the 2016 census. Dublin became the capital of the Irish Free State, later renamed Ireland.

Dublin is a contemporary and historical centre for Irish education, arts and culture, administration and industry. As of 2018 the city was listed by the Globalization and World Cities Research Network as a global city, with a ranking of “Alpha minus”, which places it as one of the top thirty cities in the world

Dublin celebrated its ‘official’ millennium in 1988, meaning the Irish government recognised 988 as the year in which the city was settled and that this first settlement would later become the city of Dublin. It is now thought the Viking settlement of about 841 was preceded by a Christian ecclesiastical settlement known as Duibhlinn, from which Dyflin took its name. Beginning in the 9th and 10th century, there were two settlements which later became the modern Dublin. The subsequent Scandinavian settlement centred on the River Poddle, a tributary of the Liffey in an area now known as Wood Quay. The Dubhlinn was a pool on the lowest stretch of the Poddle, where ships used to moor.
