- Variants of COVID
- Virus in Body
- Symptomology of COVID
- Diagnosis and its methods of COVID
- Pharmaceuticals for COVID
- Herbs for COVID
- Nutrition role in COVID
- Replication of virus
- Chronic effects of COVID
- COVID and Cardiac Effects
- COVID and Pulmonary Effects
- Haematological effects due to COVID
- COVID and Mental health
- post COVID consequences
- COVID in pregnancy
- vaccines for COVID
- nursing role in COVID
- COVID and Infectious diseases caused by COVID
- Impact of COVID & social media

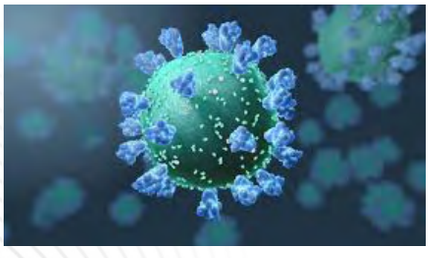

35 Years Excellence

ABOUT US

Since many years Pulsus has also been very instrumental to provide an invaluable channel for Scientists and Researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between Universities, Institutions, research bodies and Organizations from different countries through International Conferences and Meetings.

Pulsus Group is an International Renowned Medical peer-review publisher and conference organizer established in the year 1984 publishes and hosts the work of Researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of more than 35 years of excellence in Medical Publishing we are endorsed by various societies like World Association of Medical Sciences, International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, International Society for Ceramics in Medicine, Thalassemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The global market research services market is expected to grow from $71.86 billion in 2020 to $75.66 billion in 2021 at a compound annual growth rate (CAGR) of 5.3%.

The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach $90.79 billion in 2025 at a CAGR of 5%.

The market research services market consists of the sales of market research services and related goods by entities (organizations, sole traders and partnerships) that plan, develop, create and manage activities for studying and analysing markets according to client's specifications. Market research establishments undertake processes where human capital is the major input.

They make available the knowledge and skills of their employees, often on an assignment basis, where an individual or team is responsible for the delivery of services to the client. The market research services market is segmented into marketing research and analysis services and public opinion and election polling.

TARGET AUDIENCE

- Surgeons
- Health-care Analysts
- Students, Interns and Residents
- Research Faculties
- Doctors and Nurses
- Directors/Managers/CEO's
- Presidents & Vice Presidents
- Scientists and Professors
- Academic Scientists
- Medical Colleges, Universities
- Societies & Associations
- Business Entrepreneurs
- Training Institutes

WHO SHOULD ATTEND

- Healthcare Students, Scientists and professors
- COVID Researchers
- Healthcare Faculty
- Medical Colleges
- Healthcare Associations and Societies
- Business Entrepreneurs
- Training Institutes
- Conference Opportunities
- Researchers
- Scientists

WHY TO ATTEND

COVID Mutations 2022 anticipates hundreds of delegates including international keynote lectures and oral presentations by renowned speakers and poster presentations by students, Exhibitions and delegates all around the world which will craft a platform for global promotion and effective development in this field. It provides international networking and opportunities for collaborations with worldwide companies and industries. ABOUT VENUE

Dubai is the most populous city in the United Arab Emirates (UAE). It is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. The city of Dubai is located on the emirate's northern coastline and heads up the Dubai-Sharjah-Ajman metropolitan area. Dubai is to host World Expo 2020. Dubai has emerged as a global city and business hub of the Middle East.

It is also a major transport hub for passengers and cargo. By the 1960s, Dubai's economy was based on revenues from trade and, to a smaller extent, oil exploration concessions, but oil was not discovered until 1966. Oil revenue first started to flow in 1969. Dubai's oil revenue helped accelerate the early development of the city, but its reserves are limited, and production levels are low: today, less than 5% of the emirate's revenue comes from oil. The emirate's Western-style model of business drives its economy with the main revenues now coming from tourism, aviation, real estate, and financial services. Dubai has recently attracted world attention through many innovative large construction projects and sports events. The city has become iconic for its skyscrapers and high-rise buildings, in particular the world's tallest building, the Burj Khalifa.
