PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. PULSUS proudly presents the "6th Global Virtual Conference on Data Science and Machine Learning" slated on February 07-08, 2022.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Data Science professionals from around the world to participate in the upcoming Data Science 2022. The meeting for this year will revolve around the theme "**Exploring innovation in Data Science and Machine Learning**" thus relaying the most cutting edge findings in the field of data science. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

## Data Science Market Analysis

With the development of data science technologies and business intelligence at enterprises, the market for data analytics software is growing at a fast rate.

## Data Analytics Market

According to Market Research Future, the market for Data Analytics predicts to reach $132.9 billion by 2026, compared to $23 billion in 2019.

Although the growth has achieved with the help of many industries, it's primarily driven by internal business intelligence areas. The market of North America has predicted to remain dominant, and the Asia-Pacific region's use of data analytics keeps increasing quickly than other regions, with China as the leading country.

## Machine Learning Market Analysis

Between 2021 and 2026, the global market expected to grow at a considerable rate. In 2021, the market expected to rise over the projected timeframe due to the adoption of new strategies by key players.

Market revenue for Machine Learning was 1.03 Billion USD in 2016, and will grow to 8081 Billion USD in 2022, with a CAGR of 44.1% during the forecast period. North America, Europe, Asia Pacific (APAC), the Middle East & Africa (MEA) and Latin America are the regions that make up the global machine learning market. The region with the highest revenue is North America. The reason for this is the high focus on R&D in the developed economies of the US and Canada. Global markets in these regions are highly competitive and rapidly changing. Market growth expected to be fastest in APAC. APAC has become a highly potential market due to increased awareness of business productivity coupled with competently designed machine learning solutions provided by vendors in the region.
