We provide a lot of session to choose from and the schedule is flexible. With Speaker who key expert in Dementia and its field and day full of sessions, there is a lot to take from it.

Market Analysis

Consistently around 7 million individuals kick the bucket because of neurological disorder and each 5 individuals out of 10 are affected by emotional instability and many individuals are even not mindful of manifestations or sign of it.

According to WHO 47.5 million people have dementia and every year 7.7 million new cases are appearing. By 2030 total cases of dementia is projected to be 75.6 million and almost triple by 2050 to 135.5 million. Alzheimer's disease contributes 60-70 % of cases in dementia and second most common condition of dementia is vascular dementia which contributes 20% of cases all over the world. Total estimated cost of dementia is 818 billion US $ in 2015.

In developed countries only 20-50 % of dementia cases are diagnosed and documented as primary care. In low and middle income countries contributes to 58% of all dementia cases. Dementia has overall economic impact of $157 billion in USA annually.

Overall death rate in world due to dementia, Finland has highest death rate i.e. 53.77 % and in other countries high rate of dementia such as United States, United Kingdom, Canada, Australia and lowest in Republic of Suriname.

Based on the recent Study, dementia is considered as the costliest disease. The average dementia care cost spent for a Span of 5 years corresponds to $287,038. out of total cost of dementia, two third is paid by dementia Sufferers and their families .Informal Care given by families save the economy £11 billion a year.

UK is positioned as the second leading country having highest death rate due to dementia. Based on the current estimation, the prevalence of dementia in UK reached 850,000 people in 2015 and it is forecasted to reach 1 Million by 2025 . The total cost incurred for dementia is £26.3 billion. With increase in number of people and gyration of cost , dementia remains as tussle for UK.

About City

London is city of Enchantment and hopes. Being the Capital of England with large metropolitan area in United Kingdom, comprises 13% of UK population. The Population of London has touched 8.6 million with more than 300 Languages in Usage. The Climatic condition of the city is influenced by ocean, hence it is cool, humid and rainy.

London bears the largest public transport network in the world and known to be integrated public transport which helps to switch between cities easily. The Iconic Transport system of London is recognized worldwide with its red bus, black cabs and tube trains.

One of the world's most visited cities, London has something for everyone: from history and culture to fine food and good times. London Located on Thames valley has Eclectic tourist attractions. The Most common and famous tourist attraction is Buckingham Palace, Westminster, Tower of London, London eye, Tate Modern, Madame Tussauds, Kensington Palace, etc... The panoramic view of London Can be ogled from The Shard -a 95 stories Skyscraper and western Europes's tallest building.

London is also a home for many museums and galleries. Being Colossal, the city is blend of Classic and contemporary. The aura of the London can't be replaced by any city.

"London is like a smoky pearl set in a circle of emeralds"
-WILLIAM HENRY RIDEING.
