About

Pulsus brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. London is all set for an amazing event as Pulsus proudly presents the “2nd Annual Dentistry and Dental Sciences Congress” slated on **January 10-11, 2022** at **Dubai, UAE**.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Oncology from around the world to participate in the upcoming Oncology 2019. The meeting for this year will revolve around the theme “Recent Trends and Advancements in Dentistry and Dental sciences” thus relaying the most cutting edge findings in the field of Oncology. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business.

It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers

and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards

Dentistry 2022

16:15-18:00	Poster Presentations
Day Concludes	
Award Ceremony	

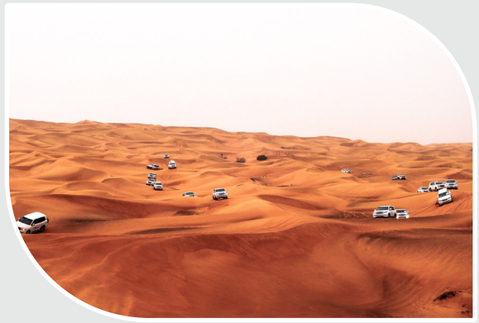

Tourist Attractions

Venue

Dubai is the most populous city in the United Arab Emirates (UAE) and the capital of the Emirate of Dubai. Established in the 18th century as a small fishing village, the city grew rapidly in the early 21st century into a cosmopolitan metropolis with a focus on tourism and hospitality. Dubai is one of the world's most popular tourist destinations with the second most five-star hotels in the world, and the tallest building in the world, the Burj Khalifa.

Located in the eastern part of the Arabian Peninsula on the coast of the Persian Gulf, Dubai aims to be the business hub of Western Asia. It is also a major global transport hub for passengers and cargo. Oil revenue helped accelerate the development of the city, which was already a major mercantile hub. A centre for regional and international trade since the early 20th century Dubai's economy relies on revenues from trade, tourism, aviation, real estate, and financial services. Oil production contributed to less than 1 percent of the emirate's GDP in 2018. According to government data, the population of Dubai is estimated at around 3,400,800 as of 8 September 2020.
