Learn Beyond your Field of Interest

Professional Development to Elevate your Knowledge and Skills

Diabetes 2019

Speakers Representation from 50+ Countries

1 Conference | 2 Days | 27th Conference in Diabetes

15 Keynote Talks | 75 Plenary Speakers | 17 Interactive sessions

Symposia | Workshops | Best Poster Award

200 Attendees | 50 Professors | and many more . . .

WELCOME MESSAGE

Greetings!

Welcome to most exciting and globally famous for influential art, architecture place Rome, Italy!

Within this splendid setting, we plan to deliver a conference that will exceed your expectations.

During this year's Conference, we hope that you will seize the opportunity to rekindle ongoing connections and spark new ones with your colleagues from around the globe. It's with great pleasure and great honor to invite you to the "***3rd International Conference on Diabetes and Metabolism***" scheduled during ***October 14-15, 2019*** at ***Rome, Italy***.

The Conference will be organized around the theme "***Evincing the therapeutic approaches and development in Diabetes***"

Diabetes 2019 anticipates more than 500 participants around the globe to experience thought provoking Keynote lectures, Oral & Poster presentations. This year conference will offer ample opportunities for all stakeholders working on Diabetes, Nutrition, Obesity, endocrinology and Metabolism to expose their research work.

Our conference aims to gather the Researchers, principal investigators, experts, Diabetes and researchers working on Endocrinologists, Endocrine Surgeons from both academia and health care industry, Business Delegates, Scientists and students across the globe to provide an international forum for the dissemination of original research results, new ideas and practical development experiences.

This year's Conference program, coupled with the Business Opportunity Exchange, is an event you can't afford to miss!.

Sincerely

Cailey Fernandez

Cailey Fernandez

Program Manager | Diabetes 2019

Organizing Committee

ABOUT 2019 CONGRESS

Diabetes 2019 that dedicated to Innovate Solution to the Public Health Challenges, one conference which future the shape of Diabetes, Nutrition, Obesity, endocrinology and Metabolism. Our Conference will organize and allow to access the global researchers around the world in a single platform. Diabetes 2019 will provide a great opportunity beyond any comparison to attend and network with Diabetes, Nutrition and Metabolism Community.

Join us at our 2019 edition of Diabetes to Experience the Global Ambiance with the Researchers who work with similar significance of research. Diabetes 2019 will help you to get answers to all your queries related to your research work and also it creates an great opportunity to make new associations and also helps to foster potential partnerships. Diabetes 2019 will be an great platform for you to create long lasting relationship with the fellow researchers from Diabetes, Nutrition, Obesity, endocrinology and Metabolism Community.

Get worldwide acknowledgement to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research work. Where this was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website majority amount of traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Diabetes 2019 website is attracting 56000+ Diabetes, Diabetologists Research scientists, Diabetes and Endocrinology Organizations and societies, Pharmaceutical companies, Diabetes Industries, Diabetes associations, Professors and Students..

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Diabetes 2019 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

CONFERENCE AT A GLANCE

AGENDA AND MOTIVE

Purpose

With members from around the world focused on learning about Diabetes and Endocrinology, this is your single best opportunity to reach the largest assemblage of participants from the scientific community.

Conduct demonstrations, distribute information, meet with eminent personalities, and make a splash with latest research innovations at this outstanding event.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Diabetes and Endocrinology to present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address Diabetes and Endocrinology and overcome barriers that limit access to care and services.

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Diabetes and Endocrinology
- Discuss and apply recent research findings related to Diabetes
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

Who should attend?

Diabetes Researchers, Diabetes Practitioners, Clinical Diabetes Specialists, Doctors, Surgeons, Scientists, Research Scientists, Diabetes Societies, BusinessDelegates, CEO's, R&D Heads from Industries, Directors, Professors and Studentsfrom Academia, researchers who utilize novel techniques.

ATTRIBUTES

Diverse Action-Oriented Programming & Networking

EXPERIENCE: Inspiring change around the country and world, growing a revolution from the Diabetes, Nutrition, endocrinology and Metabolism research.

EXPLORE the forefront of breakthrough ideas and models in electrifying morning keynote talks, featuring luminaries and "the greatest people you've never heard of."

PARTICIPATE in afternoon panels and workshops/symposiums on diverse topics of Diabetes Education, Practice and Research, and Diabetic Life more!

NETWORK with a community of leadership – dynamic change makers from around the country and world, or from your region, to develop important professional and personal relationships.

SHARE your insights and learning at the conference in participatory and experiential workshops.

DISCOVER powerful opportunities and strategies for creating and engaging with progressive change in your work, life and community.

CELEBRATE how great a difference one person can make, and how building community amplifies that change.

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Diabetes 2019 Past Conferences

The **World Congress on Diabetes and Endocrinology** was held during **August 22-23, 2018 at Rome, Italy** focusing on the theme "A challenge- Prominence of Preventing Diabetes and Endocrine Complications".

We would like to thank all our Organizing Committee Members, wonderful Keynotes, Speakers, Conference attendees, Students, Associations, Media partners, Collaborators, for making Diabetes Congress 2018 a successful and splendid event.

Diabetes 2018 was marked by the attendance of young and brilliant researchers, business delegates and talented student communities representing various countries, who have driven this event into the path of success.

The conference was embarked with an opening ceremony followed by a series of lectures delivered by both Honourable Guests and members of the Keynote forum. The adepts who promulgated the theme with their exquisite talk were:

- Chandan Saha | Director of Biostatistics Core | DTRC Indiana University School of Medicine | USA
- Ahdy W. Helmy | Indiana University | USA
- Lue Ping Zhao | University of Washington | USA
- Naglaa A. Ahmed | Doctor | Riyadh | Saudi Arabia
- Havva Keskin | Istanbul Medeniyet University Goztepe Training and Research Hospital | Turkey
- Alaaeldin Alhessi | Emirates hospital group | Dubai |UAE
- Pizzol Damiano | Head of Operational Research Unit of Doctors with Africa | South Africa
- Bernadette Dian Novita | University Surabaya | Indonesia
- Allison Landa | Congenital Adrenal Hyperplasia Patient | USA
- Irina Kurnikova | RUDN University | Russia
- Pradeep | BIOCON | India
- Yasser M Hafez | Tanta University | Egypt
- L Lateesh | Hand & Reconstructive Surgeon | India
- Subbiah Ramasamy | Madurai Kamaraj University, India
- Mohamed M Aboelnaga | Mansoura University | Egypt
- Marija Glisic | Erasmus Medical Center | Netherlands
- Himanshu Nayak | AMC MET Medical College | India
- Saeko Imai | Kyoto Women's University | Japan
- Kishor Mazumder | Jessore University of Science and Technology | Bangladesh

We sincerely thank the Organizing Committee Members for their gracious presence, support, and assistance towards the success of Diabetes 2018.

With the grand success of Diabetes 2018, Pulsus Group is proud to announce the **3rd International Conference on Diabetes and Metabolism** to be held during **October 14-15, 2019 in Rome, Italy**.

Convey Your Research Ideas at Rome!!

Yasser M Hafez, Tanta University, Egypt

This is my first time I participate in the event; the lectures are great and very interesting. It's my great pleasure to attend and moderate this conference.

Irina Kurnikova, RUDN University, Russia

I attended the World Congress on Diabetes and Endocrinology it was very fantastic and learnt a lot. Most of the people who attend like physicians and academicians will put bit more effort to help and advocate to control of diabetes on continent

Marija Glisic, Erasmus Medical Center, Netherlands

International Conference on Diabetes was success because I learnt a lot on diabetes and this time, it was very very interesting. In future I would like to attend more conferences like this.

Kishor Mazumder, Jessore University of Science and Technology, Bangladesh

There have been very interesting sessions and many interesting studies, and I found the congress very much enriching and I will ask you guys to attend next conference

Chandan Saha, DTRC Indiana University School of Medicine, USA

I appreciated the conference arrangements in future I would like to refer this conference

Ahdy W. Helmy, Indiana University, USA

I found this meeting to be very interesting and very well organized.The staff was very friendly and helpful. Most keynote speakers had a good scientific level as well as some of the other speakers.

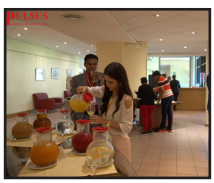

CONFERENCE OVERVIEW

Scientific Sessions

Diabetes: Types and Complications
Genetics of Diabetics
Nutrition & Diet
Insulin Medications
Diabetes and Skin complications
Obesity complication and Management
Diabetes Podiatry
Diabetes and Cardiovascular Diseases
Diabetes and Cancer
Biomarkers and Diabetes
Risk Factors and Related Diseases of Diabetes
Thyroid glands Disorders
Nanotechnology in Diabetes
Herbal Therapy for Diabetes
Endocrinology and Metabolism
General Pediatrics
Gynecologic Endocrinology and Infertility
Neuro Endocrinology
Advanced Technologies for the Treatment of Diabetes
Business and Economics of Diabetic Products

Diabetes 2019 Outlook

Explore the best in Cutting edge Research

Change to learn beyond your field of Interest

Keynote sessions by worlds most eminent and distinguished researchers

Conference Participation Inspires, Rejuvenate and Energize participants

Diabetes and Endocrinology an unique platform to increase your reputation within the Diabetes and Endocrinology

Learning and Knowledge in a single package

Speaker's representation from 50+ Countries

1 Conference | 2 Days and 27th conference in the Row

Diabetes is a complex, chronic illness requiring continuous medical care with multifactorial risk-reduction strategies beyond glycemic control. Ongoing patient self-management education and support are critical to preventing acute complications and reducing the risk of long-term complications. Significant evidence exists that supports a range of interventions to improve diabetes outcomes. Diabetes 2019 conference aims to encourage scientific excahneg between the researchers at the cutting-edge of this field, to critically and collectively address the current state of the field and its future directions and to strengthen and renew the community promoting close interactions between researchers across all levels.

Try not to miss the Diabetes 2019 Conference arrangements composed particularly for the leaps forward in Diabetes, Nutrition, Obesity, endocrinology and Metabolic research.

Diabetes 2019 conducts a wide range of Sessions and Tracks which provides the participants and all the attendees with an opportunity to extend their information in the subject and interact with professionals in the field of Diabetes and Endocrinology, Practice and Research. The agenda of the conference highlights new and advanced science and current topics with interesting Sessions, Symposia, Workshops, and Plenary talks,Keynote Presentations, Young Researchers Forum and Poster Sessions.

Diabetes 2019 have 18 technical sessions that encompass areas of different Diabetes and Endocrinology fields focusing on healthcare, evidence-based practice and advances in technologies.

Over the past few decades number of cases of diabetes have been increasing steadily. Global diabetes drug market was valued at 49.26 billion dollars in 2016 and is projected to reach global revenue of 66.29 billion dollars in 2021. Most used drug in the market in 2016 was human insulin. Global diabetes market valued $125 billion in 2016 and is expected to reach $155 billion by 2021. Global market for incretin-based therapeutics was valued $12.7 billion in 2014 and is expected to reach $22.8 billion by 2019. Global market for obesity treatments should reach over $7.8 billion by 2021 from $4.3 billion in 2016. Global market for Continuous Glucose Monitoring(CGM) products valued $320.9 million n 2014 and is expected to reach $783.9 million by 2019.

These sessions also provide a broad and comprehensive coverage of the Diabetes, Metabolism and Nutrition field, while focusing on several rapidly emerging sub-fields. Each session will begin with a key thought-leader/practitioner who will present the unmet needs in their discipline that may be addressed. This will be followed by speakers, comprising of a mix of established senior leaders, rising star researchers, physician-scientist-engineers, and researchers who are working to solve one of the challenges in that discipline. In particular, the Organizing board decides the welcomed talks and finalizes the oral & Poster sessions towards the conference.treatment for the illness.

AN INTRO TO ROME

Rome is the capital city of Italy. Rome, the “eternal city”, is purported in light of the fact that it is a position of extraordinary beauty, difference and life. Rome is an eclectic city: It is one of the most ancient cities in Europe. the religious world focal point of the Catholic Church, the fabulous ruins of the centre of the Roman Empire, and modern, bustling Rome. All three seem to be incongruous, yet they live inside and besides with great ease.

Accompany Partners' Policy:

We respectfully remind you that partners accompanying delegates/speakers are not eligible to attend conference sessions and do not qualify for refreshments and lunches during the day unless they have registered.

Any partner wishing to attend events not previously selected and paid for in his or her registration may do so at the Conference Registration desk.

We would be pleased to accommodate any requests where possible.

Registration and Accommodation

Policy:

Registration and accommodation changes will not be accepted unless made in writing.

Changes made within 14 days of the event may incur costs due to specific hotel and venue policies

Cancellation Policy:

Registration cancellations will not be accepted unless made in writing.

Cancellations request made before 15 September 2019 will be refunded less 25% of the Conference Registration fee, to cover administration costs.

No registration refunds will be processed after this date, however, substitute delegates are welcome.
