About City and Venue

PULSUS
WWW.PULSUSCONFERENCE.COM

Dubai is the most populous and largest city in the United Arab Emirates (UAE). Dubai has developed as a global city and business centre point of the Middle East. It is likewise a noteworthy transport centre point for travellers and freight. Dubai has attracted world attention through large construction projects and sports events, the world's tallest building, the Burj Khalifa. Oil revenue first started to flow in 1969. Dubai's oil revenue helped accelerate the early development of the city, but its reserves are limited, and production levels are low: today, less than 5% of the emirate's revenue comes from oil. The emirate's Western-style model of business drives its economy with the main revenues now coming from tourism, aviation, real estate, and financial services. Dubai has recently attracted world attention through many innovative large construction projects and sports events. The city has become iconic for its skyscrapers and high-rise buildings. Dubai provides a world-class education and enormous job opportunities. The most well-known universities in Dubai are American University in Dubai, Hult International Business School, Al Ghurair University, The American College of Dubai, the University of Wollongong in Dubai and British University in Dubai offering courses in Business Administration, Engineering, Architecture and Interior Design.
