Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Las Vegas is all set for an amazing event as PULSUS proudly presents the "3rd World Drug Delivery and Formulation Summit" slated on April 15-16, 2019 at Las Vegas, USA.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Pharma from around the world to participate in the upcoming Drug Delivery Summit 2019. The meeting for this year will revolve around the theme **" Endorse the endeavour for modern therapeutic era in Drug Delivery System"** thus relaying the most cutting edge findings in the field of Pharma Research. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

About PULSUS

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Drug delivery system refers to the combination of one or more traditional drug delivery methods with engineered technology that create the ability to specifically target where a drug is released in the body and the rate at which it gets released. Moreover, formulation is a mixture in a particular state that the drug is supplied to the patient either it can be solid, semisolid or liquid. Nanoparticles are significant in refining drug delivery that they can be pharmaceuticals as well as diagnostics. Currently the drug delivery systems are used in medical practice, the side effects occur depending on the medication, the way it is delivered and how our bodies respond and it vary from person to person. Targeted drug delivery system can allow doctors to transport medicine to exact location in the body and help to safeguard the medicine reaches the area where it's required without any degradation. Current research by NBIB (National Institute of Biomedical Imaging and Bioengineering) researchers describe drug delivery systems in four categories: routes of delivery, delivery vehicles, cargo, and targeting strategies. The significant areas of future research comprise: Crossing the Blood-Brain Barrier in Brain diseases and disorders, enhancing targeted intracellular delivery, Combining Diagnosis and Treatment.

Target Audience

- Scientists
- Researchers from Pharmaceutical companies
- Biomedical engineers
- Pharmaceutical associations and societies

About City and Venue

Las Vegas is the most populated city in the state of Nevada, and the county seat of Clark County. It is an internationally renowned major resort city known primarily for its gambling, shopping, fine dining, entertainment, and nightlife. It is the leading financial, commercial, and cultural center for Nevada. It is a top three destination in the United States for business conventions and a global leader in the hospitality industry, claiming more AAA Five Diamond hotels than any city in the world. Las Vegas annually ranks as one of the world's most visited tourist destinations. Las Vegas may be known for its extravagant shows, but there are plenty of things for visitors on a budget to enjoy, too. In some of the city's top attractions, like the Fountains of Bellagio and the volcano at The Mirage, don't cost a thing to watch. Cultural attractions are thriving thanks to various art galleries and museums, and let's not forget the desert playground itself.
