INTERNATIONAL CONFERENCE ON

DRUG DISCOVERY, DRUG DESIGN AND DRUG DEVELOPMENT

OCTOBER 16-18, 2023 | PARIS, FRANCE

https://drugdiscovery.pulsusconference.com/

INVITAITON

DRUG DISCOVERY 2023

GREETINGS!!!

Drug discovery 2023 feels proud to announce the onset of the "International conference on Drug Discovery, Drug Design, and Drug Development" on Pharmaceutical and pharmacology during October 16-18 2023, which is going to be held at Paris, France which incorporates keynote introductions, Oral talks, Poster introduction, and Exhibitions.

Drug Discovery 2023 warmly welcome you to attend the experts' futuristic ideas and a gathering of world-renowned academicians, researchers, business delegates, principal investigators, and top branded exhibitors.

A superb networking opportunity will be supported by this symposium, which offers a significant and valuable venue for encouraging interdisciplinary dialogue at the cutting edge of pharmacological research. Researchers, investment groups, pharmaceutical firms and members of the larger biomedical community can use it as a valuable resource to find novel medicines and enhance patient care.

A fascinating three days of discussions are anticipate.

Regards,
Nancy Robert | Program Manager

MARKET ANALYSIS

The pharmaceutical industry will invest approximately 238 billion dollars in research and development worldwide in 2023, up from 137 billion US dollars in 2012. Pharmaceutical research and development (RD), which encompasses all phases of clinical trial development, includes pre-clinical chemical testing and fundamental disease process research. a governmental body is involved at a specific stage of the process, typically during the pre-clinical phase to examine, supervise, and ultimately approve the drug in the us.

The business research company, a major organization in charge of leading company market and consumer research, has experts in a number of fields, including manufacturing, health care, financial services, chemicals, and technology. It is spread out across the globe, and its flagship product is its flagship product. The global market model is a market intelligence platform that offers a wide range of macroeconomic measures and indicators for 60 different geographic areas and 27 different industries. The global market model includes multi-layered statistics that assist in determining supply-demand gaps for its consumers.

The pharmaceutical sector has grown quickly in recent years, and by 2023 it is anticipated to reach USD 15 trillion with the use of cutting-edge digital platforms. Big data analytics, cloud computing, and artificial intelligence the sector is undergoing a transition.

Over the past few years, significant improvements in pharmaceutical research and development have begun to change the RD landscape. a significant amount of pharmaceutical corporations RD is being contracted out to clinical research organizations, also known as contract research organizations, with the primary objective of reducing costs other noteworthy development is the use of big data in clinical research.

ABOUT VENUE

Paris is the capital and largest city of France. In a northern bend of the Seine in north-central France, the two islands Île Saint-Louis and the larger Île de la Cité make up the oldest part of Paris. The normal oceanic climate of Western Europe is affected by the North Atlantic Current in Paris. All year long, the climate is pleasant and moderately humid. Paris has long been one of Europe's primary centres for commerce, diplomacy, fashion, science, and the arts. Among the most visited sites in downtown Paris are The Louvre, Sainte-Chapelle, and Notre-Dame Cathedral. On the left bank, southwest of the city, lie Les Invalides, home to Napoleon's grave, and the Eiffel Tower. Paris has drawn artists from all over the world for centuries, who flock to the city to train and find inspiration in its extensive collection of creative resources and galleries. As a result, Paris earned the moniker "City of Art." Particularly in sculpture and reliefs, Italian painters had a significant impact on the growth of art in Paris in the 16th and 17th century. During the French Baroque and Classical eras, when painting and sculpture were the glory of the French monarchy, the French royal family hired several Parisian painters to beautify their palaces.
