PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. Dubai is all set for an amazing event as proudly presents the "4th International Congress on Advances in Food Chemistry And technology" slated on February 25 - 26 , 2019 Dubai, UAE

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Food Chemistry and Technology from around the world to participate in the upcoming Food Chemistry 2019. The meeting for this year will revolve around the theme "Innovations and Trends in Food Chemistry and Technology" thus relaying the most cutting-edge findings in the field of Food Chemistry and Technology. The two-day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Organizing Committee

Conference Highlights

- Food and Food Chemistry
- Technology in Food Chemistry
- Chemical Additives of Food
- Nutraceuticals
- Kinetics of Food Process
- Chemical Composition of Food
- Intermediary Metabolism
- Food Toxicology
- Balanced Diet, Obesity and Cancer
- Recent Innovation in Food Chemistry
- Probiotics and Prebiotics
- Biotechnology and Nanotechnology in Food
- Food Processing, Preservation and Packaging
- Food Physical Chemistry
- Chemical Fermentation Technology
- Food Analysis and Control
- Food Waste Management, Public Health and Food Safety

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the The Chemical Society of Japan, Food and Cooking Chemistry, Hungarian chemical society, European Association for Chemical and Molecular Sciences, German Society of Food Chemistry , The Korean Society for Applied Biological Chemistry , Society of Nutrition and Food Science.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

Food Chemistry 2019 provides a worldwide stage to develop new techniques for food processing to achieve food properties or to produce novel products. Food chemistry deals with the nature of chemical substance and transformation that takes place during the severe environmental conditions, processing, utilization etc. These transformation leads to the energetic changes in the body. Any imbalance and abnormality in the Chemical constituents like Carbohydrates, vitamins, minerals, water etc leads to the diseased rate in the body. So, the knowledge of Biochemistry applied in diagnosis, prevention and treatment of these diseases. Food Chemistry directing the food material to chemical observations. Food chemistry utilize many procedures and Analytical tools so that they change the food with healthy, nutritious, safe food materials with high commercial value. An understanding the chemical transformation and processes has made food substances available on a global scale. The basic principle under food chemistry is to create the methods that makes it possible to harvest, preserve, process and prepare the food with high nutritional value for human consumption and increase the shelf life of food products without causing any diseases to the human.

Target Audience

- Food Researchers
- Health care Faculties
- Professors
- Food chemists
- Scientists
- Health care Institutions
- Dietitians
- Food Technologist
- Medical collages
- Industrial Professionals
- Directors/Managers/CEO's
- Presidents & Vice Presidents
- Brand Manufacturers/ Marketers of Consumer Products
- Marketing, Advertising and Promotion Agency Executives
- Educational Institutions

Who should attend?

- Researchers in the field of Food Chemistry and Technology
- Health care associations and Societies
- Training Institutions
- Business Entrepreneurs
- Practitioners in Food Chemistry
- Health care Faculty
- Academic scientists

Why to attend?

- 10+ Keynote Speaker Session
- 50+ speaker faculty over 2 full days sharing Evidence Based on Chronic Diseases
- 5+ Workshops
- 13 Interactive sessions
- Mixture of Health care units and Academia Delegates
- Networking
