Dublin is the capital and largest city of Ireland. Situated on a bay on the east coast, at the mouth of the River Liffey, it lies within the province of Leinster. It is bordered on the south by the Dublin Mountains, a part of the Wicklow Mountains range. It has an urban area population of 1,173,179, while the population of the Dublin Region (traditional County Dublin) as of 2016 was 1,347,359. The population of the Greater Dublin Area was 1,904,806 per the 2016 census. Dublin became the capital of the Irish Free State, later renamed Ireland.

Dublin is a contemporary and historical centre for Irish education, arts and culture, administration and industry. As of 2018 the city was listed by the Globalization and World Cities Research Network as a global city, with a ranking of “Alpha minus”, which places it as one of the top thirty cities in the world.

Beginning in the 9th and 10th century, there were two settlements which later became the modern Dublin. The subsequent Scandinavian settlement centred on the River Poddle, a tributary of the Liffey in an area now known as Wood Quay. The Dubhlinn was a pool on the lowest stretch of the Poddle, where ships used to moor. This pool was finally fully infilled during the early 18th century, as the city grew. Meaning “Dublin, which is called Ath Cliath”.
