PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Chemistry and Environmental challenges from around the world to participate in the upcoming Green chemistry 2019. The meeting for this year will revolve around the theme "Deterrent World for Green and Healthy Environment" thus relaying the most cutting-edge findings in the current issues of environmental challenges and to make a better world. The two-day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

MARKET ANALYSIS

Green Chemistry - renewable chemicals derived from bio-based feedstocks using environmentally friendly production technologies—have gone global. Renewable chemicals or bio-based chemicals are obtained from renewable sources such as agricultural feedstock, agricultural waste, organic waste products, biomass, and microorganisms and are used to produce other chemicals. They are used in various applications across different industries such as in food processing, housing, textiles, environment, transportation, hygiene, and pharmaceuticals. Also, the manufacture of surfactants and lubricants, consumer goods, resins, and plastics for environmental purpose use renewable chemicals.

WHO SHOULD ATTEND??

- Scientists
- Research Associates
- Young research fellows
- Students from Academia
- Chemistry associations
- Biofuels Plant Engineers
- Recycling Specialists
- Industry professionals

ABOUT CITY AND VENUE

Rome is the capital of Italy and a special commune. Rome also serves as the capital of the Lazio region. With 2,876,051 residents in 1,285 km2 (496.1 sq. m).The Vatican City is an independent country inside the city boundaries of Rome, the only existing example of a country within a city: for this reason, Rome has been often defined as the capital of two states. Rome is a great walking city, and surprisingly doable. Toss your coin, then cross the Via del Corso toward the Pantheon. This building appears suddenly before you amid the hustle and bustle of modern-day Rome. The space inside the Pantheon is a perfect sphere, and the poured-concrete coffered dome is still the largest ever built. With wonderful palaces, millennium-old churches, grand romantic ruins, opulent monuments, ornate statues and graceful fountains, Rome has an immensely rich historical heritage and cosmopolitan atmosphere, making it one of Europe's and the world's most visited, famous, influential and beautiful capitals. Today, Rome has a growing nightlife scene and is also seen as shopping heaven. It is also being regarded as one of the fashion capitals of the world with so many sights and things to do, Rome can truly be classified as a "Global city".
