2ND ANNUAL CONGRESS ON

HEALTH AND MEDICAL SCIENCE

MAY 11-13, 2023 | WEBINAR

https://medicalsciences.cmesociety.com/

INVITATION

HEALTH & MEDICAL SCIENCE 2023

GREETINGS!!!

To ensure that guests receive the greatest exposure possible, Pulsus Group ensures that the event includes a mix of individuals from both academia and industry, including Healthcare specialists, medical researchers, Academic scientists, and Clinical laboratory professionals, making the 2nd Annual Congress on Health and Medical Science a perfect platform.

The Health and Medical Science Conference will be centered on the theme “Medical Progress and Exploring Health and Life Medicine”. Our goal is to provide an amazing curriculum that includes the whole range of research and developments in Healthcare and Medical Science Treatment and Medical Care, as well as exchange cross-cultural experiences with various treatment processes and rehabilitation approaches.

Health & Medical science 2023 is an annual gathering of Healthcare consultants, Clinical professionals, pharmacologists, and committees to debate the future of Medical Science in terms of diagnosis, treatment, and Clinical Methods development.

MARKET ANALYSIS

Market overview: The market for health and medical science was worth USD 66.1 billion in 2021 and is projected to increase at a compound annual growth rate (CAGR) of 11.5% from 2022 to 2030, reaching USD 175.64 billion. Growing Points: Health and medical sciences examine the genes and proteins that are present in the body of the patient to afterward build personalized medicinal therapy to treat a certain ailment. The precision medicine market is anticipated to expand in the next year thanks to significant advancements like single nucleotide polymorphism and microarray/biochips. The future of precision medicine lies in the study of the human genome, which holds great promise for revolutionizing how each patient is treated by improving our understanding of their genetic makeup, molecular profiles, and clinical traits, as well as developing effective disease-specific therapies. The need for precision medicine is expected to increase as a result of the aforementioned issues in the near future. In addition, the rising incidence of cancer is anticipated to increase demand for tailored medicines and diagnostics,which will positively impact market growth. In the United States, there were around 1.7 million new cases of cancer diagnosed in 2018.

Moreover, it is anticipated that difficulties with reimbursement regulations and the high cost of precision medicine will restrain market expansion. Precision medicine is quite expensive on the market as a result of the use of high-end calculation methodologies and complex computational tools, which add various sorts of costs to the treatment procedure. In addition, continual improvements in computational techniques and genetic technology aid in the examination of the functional impact of genetic mutations that ultimately result in the development of cancer. Thus, it is anticipated that the use of genetic diagnosis will accelerate the development of precision medicine, particularly in the area of cancer treatment.

WHY TO ATTEND

Health and Medical Sciences 2023 is an international platform for presenting research about diagnosis, prevention, and management and exchanging ideas about it and thus, contributes to the dissemination of knowledge in Healthcare and Medical Sciences for the benefit of both academia and business.

The organizing committee of this Conference is gearing up for an exciting and informative conference program including plenary lectures, symposia, workshops on a variety of topics, poster presentations, and various programs for participants from all over the world. We invite you to join us at the Health and Medical Sciences 2022, where you will be sure to have a meaningful experience with scholars from all around the world. All members of the Health and Medical Sciences 2022 and Organizing Committee look forward to meeting you in Dubai, UAE.
