33rd INTERNATIONAL CONFERENCE ON

DENTISTRY

December 07-09, 2023 | Madrid, Spain

"Theme: Dental Digitalization in the Future with Emerging Technologies"

WELCOME MESSAGE

On behalf of the organizing committee, Dentistry Conference 2023 extends a warm welcome to all the dentists, dental professionals, dental nurses, dental students, academic scholars, dental researchers, business delegates, dental hygienists from all over the globe who are engaged in the field of prosthodontics to take part in the "33rd International Conference on Dentistry" which will be held during December 07-09, 2023 in Madrid, Spain.

Dentistry Conference 2023 will be focused on the theme "Dental Digitalization in the Future with Emerging Technologies" creating an international forum for the dental community to collaborate and exchange knowledge and expertise about the innovative ideas, potential developments in the dentistry field.

We are looking forward to seeing you in Spain !

Regards,
Steve Robert | Program Director
Organizing Committee | Dentistry Conference 2023

MARKET ANALYSIS

By 2028, the market for dental implants and prosthetics, which was valued at USD 10.57 billion in 2020, is expected to have grown to USD 17.44 billion, with a compound annual growth rate (CAGR) of 6.97% between 2021 and 2028. Due to rising cases of dental caries, periodontal illnesses, tooth loss, expanding discretionary income, rising dental tourism, and a booming aesthetic industry, the global market for dental prosthesis is expanding. The World Health Organization (WHO) projected those oral disorders impacted roughly 3.58 billion people worldwide in 2016. From 2022 to 2030, the market for dental prosthesis is projected to increase at a rate of 11.6%, reaching USD 29.6 billion by that time.
