Invitation

PULSUS
WWW.PULSUSCONFERENCE.COM

At PULSUS, we aim to network your thoughts and research ideas on a larger and more effective manner by discussing the latest technologies and therapeutical aspects for dealing with the various kidney diseases including hemodialysis equipment, transplantation process. This years conference highlights the theme "Networking your thoughts on Nephrology".

Kidney 2020 is an integration of the clinical research, recent innovation in the market and the theoretical findings in the recent times. We have the aim to analyse ,decode and minimize the kidney diseases inorder to promote the health of every individual and private development. Henceforth we cordially invite all the renowned physicians, Healthcare specialists, Pharmaceutical industry delegates, Young researchers, student communities from various educational institutes to unite under a single roof the World Kidney Congress.

Diabetes, obesity and high blood pressure are the leading cause of chronic kidney diseases. In the past decade the number of Singapore residents with diabetes was estimated around 400k, this number to likely to rise to 1 million by the end of 2050. This is a shear warning that the risk to acquire any of the chronic diseases is possible at an alarming rate. This is attributed to the population of ageing people as diabetes is more significant in ageing people. In Singapore ,one out of nine people between the age 18 and 69 are more likely to be diagnosed with diabetes. Unlike the Chinese ,Indians and Malays have had higher prevalence of diabetes over the years.

.

Regards
Kidney 2020
Organizing Committee

Conference Highlights

- Nephrology
- Kidney Clinical Research and Epidemiology
- Kidney Genetics & Genomics
- Kidney Developmental Biology and Aging
- Acute Kidney Injury
- Chronic Kidney Disease
- Diabetic Kidney Disease
- Kidney Inflammation & Inflammatory Diseases
- Polycystic Kidney Disease
- End-Stage Renal Disease
- Pediatric Kidney Disease
- Kidney Disease Statistics
- Kidney Transplantation
- Premature birth & Kidney disorders
- Hemodialysis as renal replacement therapy
- Advancements in Nephrology
- Renal cell carcinoma
- Renal Biomarkers as indicators of renal carcinoma

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

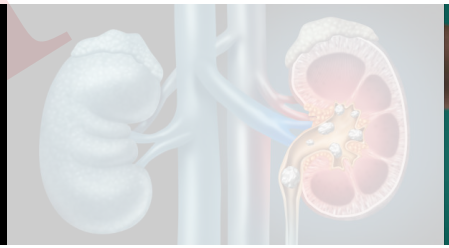

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

There have been a comprehensive study in the field of nephrology and urology , and its place in the global market for the production of wide range of medical devices in the nephrology and urology fields. The has been a huge demand for the nephrology and urology devices for the treatment of urinary and kidney problems. Wide range of kidney diseases such as Chronic kidney disease(CKD), end stage renal disease(ESRD), pelvic organ prolapse ,benign prostatic hyperplasia(BHP), Diagnosis of more kidney diseases made a steady increase or growth in the global market for the need of medical devices, since then the devices have made the treatment very efficient and effective in a very short span of time which adds demand to those medical devices.By knowing the demand about the devices in the market, we obtain a complete in-depth analysis of the market dynamics which includes many challenges &restraints and also trends.With the increasing demand of medical services the various organisations have to put in their business strategies based on their customer demands. By doing marketing research and proper analytical research they have a better chance of achieving business expansion.With more than 40% share the United States leads the number of kidney transplants performed in the year 2015. In 2015 alone 40,000 reported cases of transplants were performed. Since the need for kidneys have grown , they are the few organs which have the leverage to be given as living donation. Most of the people with kidney disease tend to live a prosperous life with only one kidney. In our today world , most of the kidney donations come from living individuals. By doing so the recipient can able to live a very long life without any issues, they also are found to be living roughly twice as long as the people who received kidney from a deceased donor. Inorder for the market to work , there has to be a proper understanding and trust between the recipient and donor.

Target Audience

- Nephrologists
- Kidney Specialists
- General Physicians
- Nephrology and Urology Professors
- Renal Practitioners
- Kidney Coordinators
- Renal Transplantation Surgeons
- Postdoctoral Students
- Nephrology Academicians
- Renal Dieticians
- Young Research Scientists
- Business Delegates
- Business Entrepreneurs
- Laboratory Technicians and Diagnostic Companies
- Pharmaceutical Companies and Industries
- Nephrology and Urology Associations and Societies
- Medical & Pharmaceutical Companies
