ABOUT US

Materials Science 2020 will provide a unique opportunity to delegates and presenters to showcase their talent and getting valuable remarks from well-renowned researchers and scholars and can meet some of the most eminent industrialists at the same time.

The sessions are designed in **Materials Science 2020** are based on the recent advancements and innovations in the field of Materials Science and it can help the attendees to know about the latest research scope and the areas that are being focused currently in the domain of Materials Science and Nanotechnology.

The conference not only focuses on the field of materials engineering but also identifies and explains the impact of Materials Science and Nanotechnology across various domains and its flexible nature to provide problem-solving solutions with maximum accuracy. The research works that contribute to the field of materials science are highly welcomed and provides a spotlight to such individuals by recognizing their works and rewarding them for their work which has the potential to contribute to a much greater extent.

01

WHO SHOULD ATTEND

Materials engineer, Nanotechnologists, Industry professionals, Electrical engineers, Pharmacologist, Metallurgist, Forensic engineer, Crystallographers, Nanomaterials designer, Business professionals, Optical engineers, Metallurgical engineers, Polymer engineer, Automotive engineer, Robotics Engineer

CALL FOR ABSTRACTS

Don't miss this chance to present research on Metallaurgy, Nanomaterials, Biomaterials, Nanomedicine and many other researches at **"Materials Science 2020"** in London, UK on September 21-22, 2020.

It is an opportunity for the young talents to network in a formal setting with the plenary speakers and top scientists in the field.

"Poster and Oral presentation slots are available"

Participation in these sessions is upon submission of an abstract (see details below). Applicants will be selected based on the quality of their abstract.

OBJECTIVES

After participating in this meeting, attendees should be able to

- Discuss emerging research prospects
- Discuss and apply recent research findings
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions

MATERIALS SCIENCE OUTLOOK

- Explore the best in Cutting edge Research
- Change to learn beyond your field of Interest
- Keynote sessions by world's most eminent and distinguished researchers
- Conference Participation Inspires, Rejuvenate and Energize participants
- Learning and Knowledge in a single package
- Speaker's representation from 30+ Countries
- Conference | 2 Days

TOPICS TO BE DISCUSSED

Track 1 : Material Science and Engineering
Track 2 : Biomaterials, Tissue Engineering And Medical Devices
Track 3 : Smart Materials And Structure
Track 4 : Polymer Science and Its Trends
Track 5 : Ceramic, Electronic and Optical Materials
Track 6 : Energy Harvesting Materials
Track 7 : Computational Material Sciences
Track 8 : Magnetic Materials, Semiconductors And Superconductors
Track 9 : Surface Science And Engineering
Track 10 : Materials Chemistry
Track 11 : Nano Science And Nanotechnology
Track 12 : Nano Electronics And Nano Photonics
Track 13 : Metallaurgy
Track 14 : Nano Medicine
Track 15 : Graphene And Carbon Nanotubes
Track 16 : Nano Robotics
Track 17 : Nano Sensors
Track 18 : Soft Materials
Track 19 : Nano Fluidics
Track 20 : Applications of Nanotechnology
Track 21 : Crystal Engineering

CONFERENCE AT GLANCE
