Cordial Greeting to the world!

After three successful international conferences on Mental Health, the PULSUS group is excited to bring forth a brand new "4th World Congress on Mental Health" scheduled on 28th of April 2022 as a Webinar.

Previously, we conducted a webinar for the event in collaboration with Brain Disorders 2022 bagging 150+ attendees' including speakers, delegates (professors, doctors, advocates, professionals, recovery centers, post-graduates, graduates, students, PhDs, etc.)

This year we aim to bring out the innovations, treatments, and therapies seen in recent years in this field of line. As the motto says, 'Stigma and You' let us come together in this international event to unveil the social stigma and deliberate the need for treatment and help.

The conference will be an experience for its informative symposia, seminars, and excellent keynote workshops by well-recognized experts in the field. It will also prove to be an open door for university and institute members to partner with internationally recognized personalities and companies interested in extending their global market scope.

We cordially invite you for this exciting event of 2 days to explore the growing field of Mental Health. We believe that this will be a significant experience for all the experts out there.

Join us for Mental Health 2022.
