5TH World Congress on

MICROBIAL BIOTECHNOLOGY

SEPTEMBER 17-18, 2018

LISBON, PORTUGAL

PULSUS is all set for an optimistic tone for the conferences to escalate medical & scientific know-how and create cognizance on the latest research findings & unfoldings in a manner that testifies not only brilliance but also transparency

Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Edinburgh is all set for an amazing event as PULSUS proudly presents the "Microbial Biotechnology 2018" on September 17-18, 2018.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Cancer from around the world to participate in the upcoming Microbial Biotechnology 2018. The meeting for this year will revolve around the theme "Current Trends and Technological Challenges in Microbial Biotechnology" thus relaying the most cutting edge findings in the field of Microbiology Research.

The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach.

Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

About Pulsus:

- PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.
- Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.
- Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. We want our conferences, societies, associations and the technology communities and companies who participate in them, to include, encourage, and recognize people of all races, ethnicities, genders, ages, and abilities. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

Global microbiology market is tremendously increasing as compared to biotechnology market due to the increasing broadness of pathogenic diseases, growth in discovery of mutating and adapting microbes, and the growing need for rapid microbiological testing methods. The microbiology testing market has accounted for 5% in the global market in 2013and contributed $3556.7 million to the IVD market, and is estimated to reach $4737.2 million by 2018, at a CAGR of 6.2% from 2013 to 2018.

Microbial Biotechnology-2018 covers mostly all the allied areas of microbial biotechnology which embraces both the basic sciences, technology and as well as its applications in research, industry and academia. This will enhance global networking between researchers, institutions, investors, industries, policy makers and students. The conference varied topics in microbial biotechnology like healthcare, environmental, animal, plant, molecular biology, genetic engineering, industrial aspects, food science and bio process.
