Invitation

The fundamental aim of this International convention is to bring together leading academic Scientists, Researchers and Industrialists to exchange ideas, experiences and research results in their ongoing project.

Microbiology 2021 is designed in such a way to attract people around the globe from both industry and academia that helps to create a scientific network between them. We the team of Microbiology 2021 cordially invite all concerned people to Vienna, Austria from academic research as well as from industries to come and join us at our esteemed convention and make it a successful event by your valuable presence.

Microbiology 2021 is delighted to welcome attendees, presenters, collaborators and exhibitors from all over the globe. We are glad to invite you all to attend and register for our reputable Conference Microbiology 2021. This event will be organized around the Theme "**Enhancing and Enlightening Novel Scientific Innovations in Microbiology**". Our objective is to deliver an excellent program which covers the entire spectrum of Research & Innovations and Impact in the field of Microbiology which includes bacteriology, virology, mycology, parasitology and immunology.

This conference provides scope and experience for all eminent participants to grab the advancements in the field of Microbiology and to expose their research work across the global network and expose an international gathering on life sciences.

Regards

Microbiology 2021
Organizing Committee

Conference Highlights

- Clinical Microbiology
- Molecular Microbiology
- Veterinary Microbiology
- Environmental Microbiology
- Food Microbiology
- Agricultural Microbiology
- Microbial Chemistry
- Pharmaceutical Microbiology
- Microbial Bio films
- Microbial Diversity
- Microbial Transformation
- Industrial Biotechnology
- Application Of Microbes
- Advances In Applied Microbiology
- Role Of Microbes In Public Health

Agenda

Day-01 November 03, 2021

Time	Session
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
Group Photo	
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Clinical Microbiology | Molecular Microbiology
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Veterinary Microbiology | Environmental Microbiology|Food Microbiology
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Tracks: Agricultural Microbiology| Microbial Chemistry | Pharmaceutical Microbiology

Tentative

Day-02 November 04, 2021

Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Tracks: Microbial Biofilms | Microbial Diversity | Role of Microbes In Public Health
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Microbial Transformation | Industrial Biotechnology
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Application of Microbes | Advances in Applied Microbiology
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Poster Presentations
Day Concludes	

Tourist Attractions

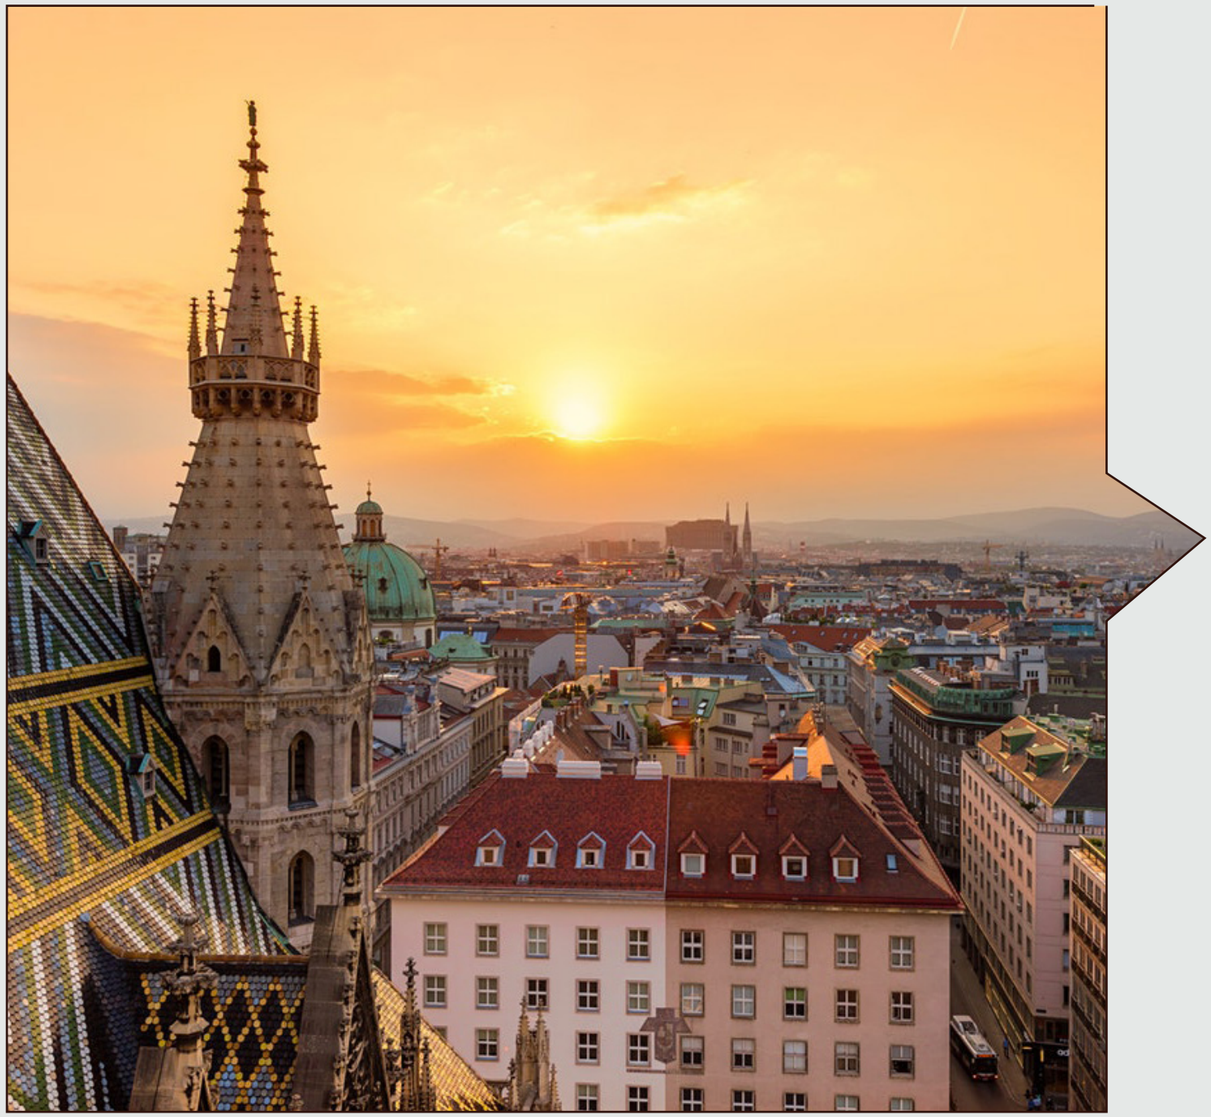

Venue

Vienna, Austria's capital and called "The City of Dreams," has its origins in early Roman settlements. It is well-known for being a big force in the European music scene. It has a population of 1.8 million people and serves as an economic and political network. Vienna's history dates back to ancient times after Christ, when the Romans founded military camps. The range of baroque buildings that distinguish today's cityscape was largely due to the reigns of Maria Theresa and Emperor Franz Joseph, who are primarily responsible for the monumental architecture. Vienna is known for its architecture, cultural festivals, coffee shops, quaint wine taverns, and a distinct Viennese charm. As I previously said, the city plays an important role in the educational system. Many research institutes have their headquarters in the city, so it plays an important role in the education system.

It is hospitable and complex. Vienna is undeniably one of Europe's most fascinating towns. So take a short tour of Vienna, explore the beautiful city, and join us at the Microbiology Conference in 2021.
