We are delighted to extend an invitation to all of you to the **10th International Conference on Microbiology**, which will take place in Vienna, Austria on **November 3-4, 2021**. Microbiology 2021 is based on the theme "Enhancing and Enlightening Novel Scientific Innovations in Microbiology".It provides a premier interdisciplinary platform for the world's leading Microbiologists, academic scientists, research scholars to exchange and share their experiences and research results on the most recent innovations, trends, and all aspects of Microbiology. This event will promote the interest and knowledge of specialists within the field of Microbiology and globalizes the quality of research. This conference covers high global aspects of microbiology.

Young and brilliant students, business delegates, and young research groups from all over the world will attend this meeting to encourage high-quality research with real-world applications in an environment of true international collaboration between scientists and engineers. This is a global meeting where microbiologists from different medical departments present their research and share ideas with existing senior scientists in an interactive environment. They will also meet colleagues from all over the world to expand their network, strengthen management and leadership skills, and improve their analytical and research abilities. Workshops, symposia, oral lectures, poster sessions, and special discussions on a broad variety of subjects in microbiology will be part of the programme.

The distinctive features of the microbiology conference includes Keynote lectures and Plenary Talks by eminent personalities from around the world in addition to contributed papers both oral and poster presentations.

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

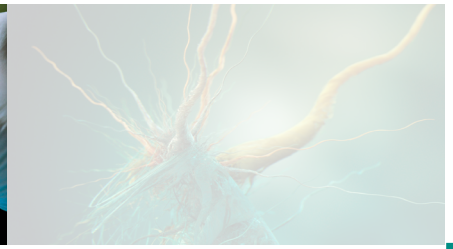

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

Microbiology 2021 will focus destination for the International Microbiology Research Societies, Associations, and Organizations. This event will bring together microbiologists, Directors, Heads of the department, Professors, Students from academia and researchers in the field of microbiology, Government officials, and global leaders to push forward the microbiology department.

Globally in 2020 USD 3.9 billion of microbiology market size is estimated to succeed in USD 5.3 billion by 2025, at a CAGR of 6.5%. For prominent as well as emerging product manufacturers the global microbiology market offers significant growth potential. Technological advancements, the rising of infectious diseases and outbreaks of epidemics (such as COVID-19), and increased funding and public-private investments are some of the driving factors for the growth of the microbiology market.

Target Audience

- Scientist
- Researchers in life science
- Immunologists
- Pharmaceutical Microbiologist
- Public Health Microbiologist
- Quality Control Clinicians
- Industry Professionals
- Biotechnologists
- Post Graduates and Under Graduates research students
- Microbiologist
- Industrial professionals

OPPORTUNITIES

For Students & Research Scholars:

- Poster presentation Competition
- Young Researcher Forum
- Group registrations
- Book Launching
- Networking opportunities

For Researchers & Faculty:

- Keynote Speaker Opportunities
- Paper and poster Presentations
- Workshops and symposiums

For Universities, Associations & Societies:

- Association and academic Partnering
- Collaboration proposals

For Companies:

- Marketing and Networking with clients
- Product launch
- Exhibitor booth
- Sponsorships opportunities

Why to attend?

The rising of infectious diseases and an outbreak of epidemics significantly increases the clinical microbiology market globally. The funding and public-private investments are also increased for this research. It will provide exposure to the ongoing researches in the microbiology labs. Companies will get the business opportunities to showcase their products by having face-to-face meetings with scientists. Companies may able to know about their market competitors. Presentations, knowledge sharing, meet with prominent scientists, make a splash with new idea for treatment & care, and receive name recognition at this 2-day event. This conference features world-renowned speakers, the latest up-to-date methods, advances, and clinical microbiology news.

About City and Venue

PULSUS
WWW.PULSUSCONFERENCE.COM

Vienna has undergone many historical incarnations. From 1558 to 1918 it absolutely was Associate in Nursing imperial city—until 1806 the seat of the Holy Roman Empire and so the capital of the Austro-Hungarian Empire. In 1918 it became the capital of the truncated, inland central country that emerged from war I as a republic.

Vienna is among the smallest amount spoiled of the nice recent western European capitals. Its central core, the Inner Stadt, is definitely manageable by foot and public transportation. in a very town far-famed for its design, several of Vienna's urban prospects stay essentially those devised over many centuries by imperial gardeners and designers. The skyline remains dominated by the tower of St. Stephen's Cathedral and by the large ride within the city's chief park, the Prater. town suffered serious harm within the last months of war II, and far reconstruction was done once the war. even so, the character of Vienna as a full remains a lot of an equivalent as within the years before 1914
