13TH INTERNATIONAL CONFERENCE ON MICROBIOLOGY

JANUARY 26-28, 2023 | DUNAI, UAE

https://microbiology.cmesociety.com/

INVITATION

MICROBIOLOGY 2023

PULSUS takes immense pleasure in inviting all the participants from all over the world to attend the "**13th International Conference on MICROBIOLOGY**" which will be held during **JANUARY 26-28, 2023** in **Dubai, UAE.**

This constitutes respectable keynote presentations, oral presentations by renowned speakers, intellectual poster presentations and exhibitions providing outlook on Microbiology & Microbes.

It offers an opportunity to meet up with esteemed individuals from both industry and academia and establish a scientific network with them. The impact of this international conference will be an excellent experience where the best expression on the most remarkable points is exhibited by pioneers.

Theme: Enhancing & Enlightening Novel Scientific Innovations in Microbiology

MARKET ANALYSIS

For years, AHSL has offered microbiological and biochemical testing services to the best resorts, eateries, shopping centres, and supermarkets in the UAE. Clients in the UAE have frequently requested assessments of the health concerns in private and public structures using the identification of Legionella sp. Our testing facilities are also used by merchants and producers of food products in order to safeguard the reputation and brand integrity of their products.

In the UAE, AHSL now operates two complete laboratories that are each individually accredited. Our ISO/IEC 17025: 2005 accreditations encompass a wide range of microbiological testing. The AHSL facilities are outfitted with cutting-edge apparatus for the detection and counting of pathogens from food and environmental samples, including Mini VIDAS, PCR, Biology Speciation Analyzer, and other devices.

The market for applied microbial science was valued at over USD 24.3 billion in 2017 and is anticipated to surpass USD 675.2 billion by 2024, growing at a 7.9% CAGR. Global Market Insights uses a unique combination of mandatory and optional tests, with permission and adjustments, to reduce discrepancies and provide the most accurate analysis of the industry.

TARGET AUDIENCE

- Microbiology Practitioners
- Bacteriology Practitioners
- Protozoology Practitioners
- Phycology/algology Practitioners
- Parasitology Practitioners
- Immunology Professionals
- Virology Doctors
- Entrepreneurs
- Academic Profesionals
- Research Scholars
- Students

WHO SHOULD ATTEND

- Researchers and Faculty members
- Business Delegates
- Medical college and Universities
- Product Manufacturers
- Scientists
- Pharmaceutical Companies
- Entrepreneurs
- Academic Professionals

WHY TO ATTEND

. To show their most recent research works.

. To make more contacts with the other specialist and investigates to continue with the assessment work.

. To get data on the connected fields.

. An global gathering gives a typical stage to divide information between academicians and scientists from different nations.

. It also offers opportunities to the connected associations to share information about their latest things and besides gives a phase to notice of their associations, from this time forward growing their acclaim.

. All-hands conferences and Poster introductions by worldwide specialists

. Targets creating public mindfulness by talking about different progressions and difficulties in Microbiology.

WHY SPONSOR OUR EVENT?

Maximum exposure at a premier conference devoted to those involved in the office professional industry.

An opportunity to build and reinforce strategic relationships within the office professional industry.

ABOUT VENUE

Dubai is located on the eastern coast of the Arabian Peninsula and in the southwest corner of the Arabian Gulf. To its southeast sits the Sultanate of Oman. Dubai is the second largest emirate in the United Arab Emirates (UAE), after the Emirate of Abu Dhabi, which is located to its south. Sharjah, the third largest city in the UAE, is located 18 km to its northeast.

The Emirate of Dubai covers an area of 4,114 square kilometres. Within the Emirate of Dubai, the city of Dubai covers an area of about 35 square kilometres but is expected to double in area with the addition of five man-made islands and the completion of desert construction work.

Dubai offers visitors a kaleidoscope of attractions. For instance, the Dubai Museum, located inside the Al Fahidi Fort, offers insights into Arabian culture. In addition, visitors can explore its contrasting landscapes, archaeological sites and a natural sea-water inlet, known as The Creek, which cuts cross the city centre and is the “focal point of life in Dubai”. Among its top attractions are the Burj Khalifa, Dubai mall and Palm Jumeirah.

To meet growing demands from the tourism sector, Dubai has developed extensive, world-class hospitality and tourism facilities. In 2017, 88.2 million passengers passed through the Al Maktoum International Airport, one of the world’s busiest airports. Plans are laid to start the building of a new airport about 65 kilometres further south.
