## Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Tokyo is all set for an amazing event as PULSUS proudly presents the "**International Conference on Tissue Science & Regenerative Medicine**" slated on **November 06-07, 2019** at **Tokyo, Japan**.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Tissue Science professionals from around the world to participate in the upcoming **Tissue Science 2019**. The meeting for this year will revolve around the theme "**Applications and New Advances in Tissue Science & Regenerative Medicine**" thus relaying the most cutting edge findings in the field of Tissue Science. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards
**Tissue Science 2019**

## Conference Highlights

- Tissue Science
- Regenerative Medicine
- Regenerative Rehabilitation
- Scaffolds
- Biomaterials
- Biosensors
- Biomarkers
- Bioartificial organs
- Bioprinting
- Wound Healing
- Tissue Regeneration
- Tissue Chip for Drug Screening
- Skin Tissue Engineering
- Anti-Aging Medicine
- Medical Implants and Prosthetics
- Gene Therapy in Tissue Science
- Nanotechnology in Tissue Regeneration
- Legal and Ethical Issues in Tissue Engineering.
