7TH INTERNATIONAL CONFERENCE ON
NANOSCIENCE

JUNE 28-30, 2023 | LONDON, UK

https://nanoscience.pulsusconference.com/

CONFERENCE AGENDA/ TENTATIVE PROGRAM

JUNE 28, 2023- WEDNESDAY	
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
Group Photo	
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Nanoscience
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Nanomaterials and Nanotechnology
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Tracks: Nanomedicine
JUNE 29, 2023- THURSDAY	
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Tracks: Nanoelectronics and Nanophotonics
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Nanorobotics
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Nanobiotechnology | Nanosensors
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Tracks: Nanofluidics | Nanoscience on Metallurgy
JUNE 30, 2023- FRIDAY	
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Tracks: Nanoscience on Crystal Engineering | Nanoscience on Polymers
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Nano Graphene | Soft Nanomaterials
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Application of Nanoscience | Nanotoxicology Risk and Safety Management
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Poster Presentations

The city of London is the capital and largest city of Britain. It is located on the south side of the country on the Thames, with a population of about 8.4 million, of whom 2.7 million live in inner London neighbourhoods. Its total population in all its suburbs is approximately 15,010,295 inhabitants, according to the 2012 estimates. This is Europe's largest city by population and one of the most important cultural, political and economic centres in Europe. It has a large number of famous theatres, universities, museums, educational institutes and cultural centres around the world. Tourism in London is suitable for all ages, young and old as well as all nationalities, where there are restaurants serving traditional meals from all over the world, often these restaurants in public parks. It is the modern city as well. It possesses the elegant and stylish features in Mayfair, Hampstead, Knightsbridge, and Chelsea. It also provides the distinct features in Shoreditch, Camden, and Dalston. Moreover, its vast business and the educational center provides the professionals and artists with too many opportunities. London is based on many cultures. It is stated as the multi-cultural city, and that's the main reason for me for liking this city. Anyone can learn different cultures from here. Anyone can make friendships and relationships here. Transportation is very easy in London. You can reach anywhere you want within time as the bus facility never stops and the bus comes on exact time. This bus system has 8,500 buses with more than 700 routes. It's one of the best transportation systems in the world. Moreover, London's metro system is the ancient and second biggest system in the world. It operates 270 stations. About three million travellers travel every day from an underground metro system. Weather of the city is cold. It possesses a moderate climate. It is one of the things that most people like about London. It's a rainy city of England. Usually, summers are warm and occasionally hot. The winter season here is cool and moist. You can see snowfall also which can create a disturbance while traveling. In London, autumn and spring seasons are pleasant and enjoyable.

Abstract submission opens: December 20, 2022 | **Registration opens:** December 20, 2022
Early bird registration: February 15, 2023 | **Final call:** June 28, 2023
