## ABOUT VENUE

London, the capital of both England and the United Kingdom, is a modern metropolis with a Roman-era past. Westminster Abbey, the location of British monarch coronations, the magnificent Houses of Parliament, and the recognizable “Big Ben” clock tower are at its center. The London Eye viewing wheel offers sweeping views of the South Coast cultural complex and the entire city from across the Thames River. The best time to visit London is March through May when the temperatures are mild and the city’s parks are green and blooming.

However, late spring – along with summer – is also prime tourist season, and hotel and flight prices reflect the surge. Due to the UK’s reputation as a worldwide leader in food science learning, many business leaders will attend and teach at the university of your choice. Students who want to spend a year getting hands-on experience in the sector have the option of placements as well.
