## Invitation

**PULSUS GROUP** takes an immense pleasure to extend our warm welcome to invite all the participants from all over the world to attend "**International Conference on Clinical and Experimental Neuropsychology**" scheduled during **June 24-25, 2019** at **Rome, Italy** which will entail lively debates, prompt keynote presentations, Oral talks, Poster presentations, workshops and networking opportunities around a core of plenary and concurrent sessions based on pivotal issues in the Psychology and Neuropsychology sector.

**Pulsus Group** is an internationally renowned peer-review publisher in scientific, technical, and medical journals established in the year 1984 with offices in Ontario, Canada and Hyderabad, India has acquired Andrew John Publishing and openaccessjournals.com to expand its Open Access Publishing through its 50+ journals in association with 20+ International medical and scientific societies.

**Neuropsychology 2019** is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence and ideas, and generate solutions. The main focus of Neuropsychology 2019 is to present research findings, discuss research methodology and policy issues, and build and maintain essential networks between researchers, practitioners, policy makers and representatives of consumer organisations. Neuropsychology 2019 works with the theme "**A Clinical Approach on Experimental Neuropsychology**" aims to discover advances in psychology practise, management and education in relation to human psychology disparities as well as a breadth of other topics. Patients with access to a regular psychologist have lower overall health care costs than those without one, and health outcomes improve. Conference will focus on these following topics during presentations of the two-day event, which reflect current education research, developments and innovations internationally and as evidenced in both psychology and neuropsychology.

## Conference Highlights

- Psychology
- Neuropsychology
- Clinical Psychology
- Experimental Psychology
- Neuropsychiatry
- Addiction psychiatry and Mental Health
- Children psychology
- Psychological disorders
- Psychology of brain and behaviour
- Psychological diagnosis

# Tourist Attractions

# Venue

Rome (Italian: Roma), the Eternal City, is the capital and largest city of Lazio region. It's the famed city of the Roman Empire. Rome, as a millennium-long centre of power, culture and having been the cradle of one of the globe's greatest civilizations ever. The tradition and culture religion have exerted a huge influence over the world in its roughly 2800 years of existence. The historic Center of the city is a UNESCO World Heritage Site. With wonderful palaces, millennium-old churches, grand romantic ruins, opulent monuments, ornate statues and graceful fountains, Rome has an immensely rich historical heritage and cosmopolitan atmosphere, making it one of Europe's and the world's most visited, famous, influential and beautiful capitals. Today, Rome has a growing nightlife scene and is also seen as a shopping heaven. It is also being regarded as one of the fashion capitals of the world with so many sights and things to do, Rome can truly be classified a "Global city".
