Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. London is all set for an amazing event as PULSUS proudly presents the "7th International Conference on Neuroscience and Neurological Disorders (Neuroscience 2022)" slated on March 18-19, 2022 at London, UK. PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Neuroscience professionals from around the world to participate in the upcoming Neuroscience 2022. The meeting for this year will revolve around the theme **"Neuroscience! Heal the world of Neurological Impairments"** thus relaying the most cutting edge findings in the field of Neuroscience and its advancements. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

About PULSUS

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

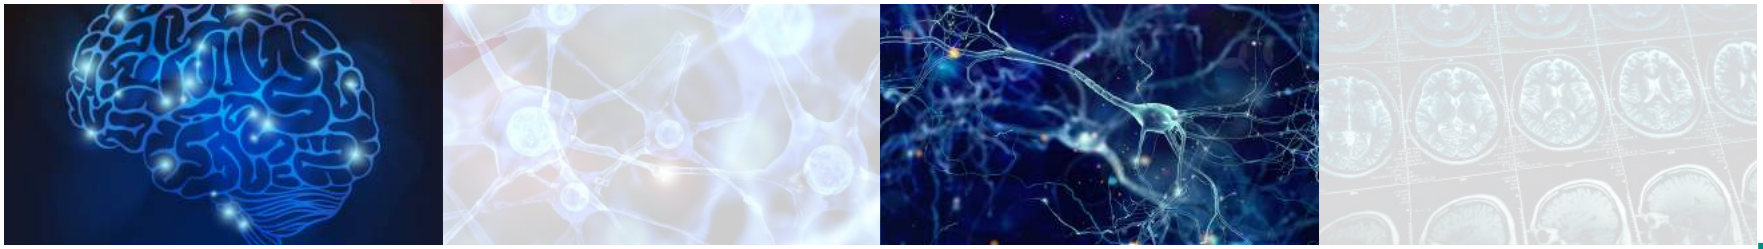

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

In neuroscience over the last 15 years many complex diseases, disorders are treated successfully. This optimistic approach has given many pharmaceutical, contract research organizations a will to develop more drugs and clinical testing. This era the sophistication of clinical laboratories, clinical researchers and modern nano research enhance the market of neuroscience Mortality rate from the neurological diseases form 1990 to 2015 was increased by 37%. Alzheimer's disease (2.4%), Parkinson's Disease (15.7%), brain and nervous system cancers (8.9%). motor neuron disease (3.1%). More number of death rate is happening in the rural areas. Investors put more effort in brain imaging, radiology and neural engineering from context to practical application due to its high efficiency. Neurological devices seem to have an elevated position in graph. Neuroscience 2022 channelizes the blooming advancement in the field of neuroscience that details about the recent non-surgical trials and research to treat Neurological disorders. This Neuroscience 2022 is being intended for the international neurologists and research experts to encourage the use of exploration discoveries identified which would be as an aid to the people who is being suffering from neurological disorders. Neuroscience 2022 consists of Oral presentation, Poster presentation and Workshop, and many interactive sessions by the Key note speakers which provide us a ray of light in the field of Neuroscience. It encourages the innovators by honoring them a Best speaker award, best poster award, best Exhibitor Award as a token of gratitude. So this conference is all about bringing out the advanced techniques and treatment in this field thereby providing a pathway to lighten in the field of Neuroscience.

Target Audience

- Neurologists
- Neurosurgeons
- Neuro physiologists
- Pharmacists
- Neurology Organizations & societies
- Pharmaceutical companies
- Neuro and CNS drug Industries
- Neuroscience associations & foundations
- Neuro patients
- Medical Students

About City and Venue

London is situated in southeastern England, lying astride the River Thames some 50 miles (80 km) upstream from its estuary on the North Sea. In satellite photographs the metropolis can be seen to sit compactly in a Green Belt of open land, with its principal ring highway (the M25 motorway) threaded around it at a radius of about 20 miles (30 km) from the city centre. The growth of the built-up area was halted by strict town planning controls in the mid-1950s. Its physical limits more or less correspond to the administrative and statistical boundaries separating the metropolitan county of Greater London from the “home counties” of Kent, Surrey, and Berkshire (in clockwise order) to the south of the river and Buckinghamshire, Hertfordshire, and Essex to the north. The historic counties of Kent, Hertfordshire, and Essex extend in area beyond the current administrative counties with the same names to include substantial parts of the metropolitan county of Greater London, which was formed in 1965. Most of Greater London south of the Thames belongs to the historic county of Surrey, while most of Greater London north of the Thames belongs historically to the county of Middlesex. Area Greater London, 607 square miles (1,572 square km). Pop. (2001) Greater London, 7,172,091; (2011 prelim.) Greater London, 8,173,941
