2nd ANNUAL SUMMIT ON

NEUROSCIENCE AND NEUROLOGICAL DISORDERS

OCTOBER 12-14, 2023 | PARIS, FRANCE

https://neuroscience.cmesociety.com/

INVITATION

NEUROSCIENCE SUMMIT 2023

On behalf of the Organizing Committee, we would like to extend a warm welcome to participate in the ***"2nd Annual Summit on Neuroscience and Neurological disorders"*** on ***October 12-14, 2023*** in ***Paris, France***.

The theme of the conference is ***"Advancement and Development in Neuroscience and Neurological disorders"***. With specialists from all across the world, we expect to have engaging discussions. The International Neuroscience Congress strives to bring together all professionals in the field of neuroscience in order to communicate the most recent research and therapies for neurological problems with the public.

The conference offers a venue for brainstorming, disseminating research, and networking with peers in the neuroscience field. A wide range of topics are covered by a fantastic selection of keynote speakers, plenary sessions, and concurrent sessions and they will address a wide range of subjects pertinent to practise, education, research, and policy in the field of neuroscience. Participants will get the chance to present their research, take part in workshops, and interact with colleagues in dynamic conversations.

This conference is expected to promote creative collaborations and thought processes that develop neuroscience and ultimately improve the quality of life for those with neurological diseases. We value the assistance of all of our sponsors, partners, and attendees, and we anticipate a lively and instructive conference.

Regards,
Elias George | Program Manager
Organizing Committee | Neuroscience Summit 2023

CONFERENCE HIGHLIGHTS

- Neuroscience
- Cellular And Molecular Neuroscience
- System Neuroscience
- Cognitive and Behavioral Neuroscience
- Neurological Disorder
- Neuroengineering and Neurophysiology
- Neuroinformatics and Neurogenetics
- Neuropharmacology
- Neurosurgery and Neuroimmunology
- Neuropediatric and Neuroplasticity
- Neuropediatrics and Neuroplasticity
- Brain Implants
- Psychedelic Treatment
- Neuro-oncoogy
- Neuroinfections and Neuroinflammation

Years Excellence

ABOUT US

Pulsus Group is an internationally renowned peer-review publisher in scientific, technical, and medical journals established in the year 1984 with offices in Ontario, Canada and Hyderabad, India has acquired Andrew John Publishing and openaccessjournals.com to expand its Open Access Publishing through its 50+ journals in association with 20+ International medical and scientific societies.

Pulsus through its cmesociety.com is been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international CME/CPD accredited conferences and meetings.

Pulsus Group is a Medical publisher that adheres to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. Pulsus Group takes pride in getting the endorsements of prestigious associations and societies like Canadian medical societies. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.Pulsus group is closely associated with globally renowned academic and research societies like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand.

MARKET ANALYSIS

The size of the global neuroscience market, estimated at USD 28723.66 million in 2022, is anticipated to grow at a CAGR of 5.12% over the course of the forecast period to reach USD 38748.35 million by 2028

The market for neuroscience is anticipated to grow as the elderly population rises. Geriatric adults are defined as those who are 65 years of age or older. The aged population is more vulnerable to several diseases, including neurological problems, due to weakened immunity and advanced age. The most prevalent neurological conditions in older persons that can be addressed with neuroscience are lumbar arthrosis and dementia. For instance, the population over 65 is predicted to rise from 9.3% in 2020 to over 16.0% in 2050, according to a 2020 report from the UN Department of Economic and Social Affairs. Also, 1.4 billion people over the age of 60 will live in the world in 2021, according to a factsheet released by the World Health Organization in October.

The market's expansion is primarily being fueled by huge expenditures made by private companies in neurology devices, an increase in R&D in the area of neuroscience, and an ageing population. The rising prevalence of neurological disorders such as brain aneurysms, brain tumors, epilepsy, memory problems, multiple sclerosis, Parkinson's disease, peripheral neuropathy, post-herpetic neuralgia, spinal cord tumors, and stroke is another factor contributing to the growth of the neurology devices market in the UK. Additionally, it is anticipated that the overall expansion of the neurology device market in France would be fueled by increased healthcare spending, rising investments by medical device manufacturers, and an increase of neurological diseases.

TARGET AUDIENCE

- Neurologist
- Neuroscientist
- Neuro-Onologist
- Neuroradiologist
- Neurosurgeons
- Pharmaceutical company
- Psychiatrist
- Research Scholars
- Diagnostic Companies
- Academic Students From Neurology Department

WHO SHOULD ATTEND

- Assistant Professor and Associate Researchers and Post Doctoral in Neurology
- Neuroscientists
- Markets Expanding in the Feild of Neuropharmaceuticals
- Experts in Neuroscience and Neurological Disorders
- Professors in the Neuroscience
- Heads of Neuroscience Departments

WHY TO ATTEND

The majority of nations in the globe today offer access to medical education. The conference on Neuroscience and neurological disorders offers a platform to inspire individuals to regulate their health and take preventive measures against neurological illnesses based on access to comprehensive information and education in the areas of diagnosis and treatment.

In acknowledgment of their remarkable contributions to the conference theme, neuroscience Conferences are designed to celebrate young researchers, scientists, investigators, junior faculty, post-graduate students, post-doctoral fellows, and trainees with significant awards.

WHY SPONSOR OUR EVENT?

Maximum exposure at a premier conference devoted to those involved in the office professional industry.
An opportunity to build and reinforce strategic relationships within the office professional industry.
Time to network with industry colleagues and key decision makers.
A cost effective way to reinforce your organization's brand and build brand awareness amongst a relevant audience.
Access to a broad network of industry partners from state and federal Government departments and the private sector.
Time to present latest innovations and new products or services to a pertinent audience, and showcase your expertise and capabilities.
Increased marketing opportunities including visibility on the conference website and associated marketing materials

DIAMOND SPONSOR
$10000

- Top billing logo recognition (Chamber website, event website, invitation/publicity, event signage)
- Three corporate sponsored workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- Four complimentary registrations.
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

GOLD SPONSOR
$7500

- Logo recognition (Chamber website, event website, invitation/publicity, event signage)
- Two corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- Three complimentary congress registrations.
- Logo recognition on congress website front page with link and logo recognition on congress sponsorship page.
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

SILVER SPONSOR
$5000

- Larger name recognition (Chamber website, event website, invitation/publicity, event signage)
- Two complimentary congress registrations.
- One corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

https://neuroscience.cmesociety.com/registration

BRONZE SPONSOR
$3500

- Larger name recognition (Chamber website, event website, invitation/publicity, event signage)
- One complimentary congress registrations.
- One corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 50% discount on both Extra Delegate Registrations and Booth

EXHIBITION SPONSOR
$2500

- Larger name recognition (Chamber website, event website, invitation/publicity, event signage)
- One complimentary congress registrations.
- One corporate sponsored workshop slot (must honor deadlines, catering and audio visual included).
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm).
- Half Page A4 color advertisement in the congress program or book of abstracts (excluding cover pages).
- 25% discount on both Extra Delegate Registrations and Booth

SUPORTING JOURNALS

Selected contributions will be published in following supporting international Journals:

Journal Of Clinical Psychiatry and Neuroscience

https://www.pulsus.com/journal-clinical-psychiatry-neuroscience.html

Psychiatry and Mental Health Research

https://www.pulsus.com/psychiatry-mental-health-research.html

CONFERENCE

AGENDA/ TENTATIVE PROGRAM

OCTOBER 12, 2023 - THURSDAY	
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
Group Photo	
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Neuroscience | Cellular and Molecular Neuroscience
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: System Neuroscience | Cognitive and Behavioral Neuroscience
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Tracks: Neurological Disorders | Neuroengineering and Neurophysiology
Day Concludes	
OCTOBER 13, 2023 - FRIDAY	
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Tracks: Neuroinformatics and Neurogenetics | Neuropharmacology
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Tracks: Brain Imaging Technology | Neurosurgery and Neuroimmunology
13:00-13:45	Lunch Break**
13:45-16:00	Tracks: Neuropediatric and Neuroplasticity
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Brain Implants
Day Concludes | Award Ceremony	
OCTOBER 14, 2023 - SATURDAY	
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Tracks: Psychedelic Treatment

ABOUT VENUE

The capital and largest city of France is Paris. The oldest section of Paris, comprised of the two islands Île Saint-Louis and the larger Île de la Cité, is situated in a northern bending arc of the Seine in north-central France. The North Atlantic Current has an impact on Paris' typical Western European oceanic climate. The overall climate is pleasant and fairly humid all throughout the year. One of the major hubs for business, diplomacy, fashion, science, and the arts in Europe has been Paris. The Louvre, Sainte-Chapelle, and Notre-Dame Cathedral are among the most popular attractions in central Paris. The Eiffel Tower is situated southwest of the city on the left bank, next to Les Invalides, which also houses Napoleon's grave. Since the beginning of time, Paris has drawn artists from all over the world who come to the city for training and to be inspired by the abundance of galleries and other forms of art that are available there. Consequently, Paris earned the title of "City of Art." In the 16th and 17th centuries, Italian painters, particularly those who created sculpture and reliefs, had a significant impact on the evolution of art in Paris. In the French Baroque and Classical eras, the French royal family hired numerous Parisian painters to decorate their palaces since painting and sculpture had become the pride of the French monarchy.

Abstract submission opens: March 16 , 2023 | **Registration opens:** March 15 , 2023
Early bird registration: April 16, 2023 | **On spot registration:** October 12 , 2023
