Dubai is the most populous and largest city in the United Arab Emirates (UAE). It is situated on the southeast shoreline of the Persian Gulf and is one of the seven emirates that make up the nation. The city of Dubai is situated on the emirate's northern coastline and heads up the Dubai-Sharjah-Ajman metropolitan territory. Dubai has developed as a global city and business center point of the Middle East. It is likewise a noteworthy transport center point for travellers and freight. Dubai has attracted world attention through large construction projects and sports events, the world's tallest building, the Burj Khalifa. By 1960s, Dubai's economy was based on revenues from trade and, to a smaller extent, oil exploration concessions, but oil was not discovered until 1966. Oil revenue first started to flow in 1969. Dubai's oil revenue helped accelerate the early development of the city, but its reserves are limited, and production levels are low: today, less than 5% of the emirate's revenue comes from oil.
