Invitation

Pulsus brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. London is all set for an amazing event as Pulsus proudly presents the "**26th International Conference on Cancer and Oncology**" slated on **November 11-12, 2019** at **London, UK**.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Oncology professionals from around the world to participate in the upcoming **Oncology 2019**. The meeting for this year will revolve around the theme "**Exploring Advancements in Cancer Research & Oncology**" thus relaying the most cutting edge findings in the field of Oncology. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards
Oncology 2019
Organizing Committee

Tourist Attractions

Venue

One of the world's most visited cities, London is well worth to explore and has so much to offer, from the glorious history and culture to the state-of -the art fashion and cuisine. It is the capital and the largest city of both England and the United Kingdom. Standing on the Thames river, located in the southeastern England, is the financial, industrial and cultural center of United Kingdom. It is a prime international aviation hub and center of more than 360 railway stations. London's bus network is one of the largest in the world, also largest wheelchair network in the world. The peculiar double-decker buses are globally appreciated trademark of the city. From being the largest port in the world, it has frequent river boat services.

London has been a major international center for higher education, teaching and research work and has the largest number of top-class educational institutes in Europe. The world class top five medicals schools are major institutes.
