Invitation

Pulsus conferences insist participants from all over the world clock in "**Annual Congress on Oncology & Cancer Research**" during **May 13-14, 2022** in **Prague, Czech Republic**. The theme of the conference this year is "**Global Breakthrough in Oncology and Outspread Cancer Awareness**" which guarantees an outstanding science program supporting many esteemed speakers who are tormented by intuition

Through providing access to ongoing training and networking opportunities, the conference aims to improve the practice of advancing the profession for the benefit of the people and the individual patients they represent.

Oncology is the study and treatment of tumors which includes surgery, chemotherapy, and radiation therapy, etc. Benign tumors are benign tumors that develop just locally and do not spread. As a result, benign tumors are classified as non-cancerous. They can still be hazardous, particularly if they come into contact with important organs like the brain
