Invitation

We heartily welcome and appreciate you all to attend the "Annual Congress on Oncology & Cancer Research" which will be held on May 13 -14, 2022, at the evergreen city of Prague, Czech Republic. It's our immense pleasure in conducting yet another international conference based on the discipline of Oncology and Cancer Research, which is an indispensable emerging field in the world of science and healthcare.

The prime initiative of organizing this prestigious event is to provide an amazing forum for all classes of dignitaries to exhibit their valuable contribution into the limelight of scientific community. CNS 2021 has been organized in an interdisciplinary manner which incorporates several modalities pertaining to the field of Neuroscience, Neurology and Neurosurgery so as to disseminate wide range of information to all the participants.

Market Analysis

Oncology devices and diagnostics are a class of medical technologies that help patients and physicians screen for, diagnose, treat, and monitor premalignant and malignant illnesses. Cancer is the second biggest cause of mortality worldwide, counting for 9.6 million losses in 2018, or one in every six deaths. Men's cancers include lung, prostate, colorectal, stomach, and liver cancer, whereas women's cancers include bone, colorectal, lung, cervical, and thyroid cancer. The worldwide cancer treatments request was worth $98,900 million in 2018, and it's anticipated to grow to $180,193 million by 2026, with a CAGR of 7.7% from 2019 to 2026. The use and administration of chemotherapy and oncology specifics to treat cancer are known as cancer curatives. The expansion of the cancer curatives request is backed by an increase in cancer frequency, an increase in pharmaceutical company cooperation, and an increase in cancer exploration. Likewise, the assiduity is prognosticated to rise as the senior population grows. However, the high expense of developing oncology drugs, as well as the negative side effects associated with cancer treatments, are some of the reasons limiting the market growth.

Who should attend?

Oncology Professionals
Oncology Practitioners
Medical and Healthcare Professionals to Exchange Ideas and Knowledge networking at its 100+ International Conferences

Why to attend?

Firstly, Oncology 2022 conference collectively includes oral presentations, poster and e-poster presentations, exhibitions, symposia and workshops, through which there is a huge scope for exploratory learning. Second, since this event is a combined gathering of various leading academic experts such as Oncologists, surgical oncologists, research scientists and industrial experts, participating in this conference paves the way for deriving optimal benefits to oneself and others with respect to knowledge sharing. This conference is a good opportunity to attend, to infer novel insights from the ongoing research and medical practices, particularly in the field of Medical Imaging, Computational Oncology, Molecular Biology, Radiation Therapy, Endoscopic Oncology, Neuro oncology, Degenerative disorders, Oncological Disorders, Robotic Cancer surgery. Overall, attending this conference would be equally beneficial to all the attendees especially to the budding scientists and young researchers, as they can enhance and widen their innovative ideas of scientific research.
