Ophthalmology 2026

Market Analysis

The ophthalmology market was valued at approximately USD 65 billion in 2025 and is projected to reach USD 98 billion by 2033, growing at a CAGR of 5.3%. Increasing investments in vision research, advanced diagnostic technologies, minimally invasive surgical procedures, and innovative treatment options are driving market growth. The rising prevalence of eye disorders, an aging population, and greater awareness of preventive eye care are further supporting the expansion of ophthalmology services, diagnostics, and vision care solutions worldwide.
