International Conference on

Osteoporosis, Arthritis and Musculoskeletal Disorders

DECEMBER 04-05, 2017

Madrid, Spain

PULSUS is all set for an optimistic tone for the conferences to escalate medical & scientific know-how and create cognizance on the latest research findings & unfoldings in a manner that testifies not only brilliance but also transparency

Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Madrid is all set for an amazing event as PULSUS proudly presents the **"Osteopororis 2017" during DECEMBER 04-05, 2017**.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Endocrinology and Rheumatology from around the world to participate in the up -and -coming Osteoporosis 2017. The meeting for this year will revolve around the theme " Osteoporosis and Musculoskeletal Disorders as primary health concern" thus relaying the most cutting edge findings in the field of Osteoporosis and Arthritis Research.

The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach.

Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards

Osteoporosis 2017

Organizing Committee osteoporosis.cmesociety.com

Email: osteoporosis@cmesocietyconferences.com | osteoporosis@cmesocietyconferences.org

Conference Highlights

- Osteoporosis and geriatrics
- Osteoporosis Endocrinology
- Rheumatoid Arthritis
- Osteoarthritis
- Other Musculoskeletal Disorders
- Consequences of musculoskeletal disorders
- Advancements in diagnostic tools
- Novel pharmacological treatments
- Orthopedic Surgeries
- Musculoskeletal regenerative medicine
- Alternative treatment
- Nutrition and Prevention of musculoskeletal disorders
- Supportive approaches

Pulsus Group Conferences

300+ International Medical & Scientific Conferences, summits and events

Distinctive Features

- Attend and earn CE, CME & CPD credits.
- Learn about the latest developments in your field and aid your own growth.
- Meet your target audience & expand your B2B network.
- Get your research published in conference proceedings and renowned journals.
- Go live streaming on Youtube.
- Spread your knowledge. Conduct workshops, symposiums and exhibit your best products
- Call for Investors-Investors Meet

International Conference on
Osteoporosis, Arthritis and Musculoskeletal Disorders
DECEMBER 04-05, 2017
Madrid, Spain

Market Analysis Report For Osteopororis 2017

Medical doctors, patients and health care providers consider the prevention of orthopedic diseases as an essential tool to improve the general health status of the population. Worldwide, osteoporosis causes more than 8.9 million fractures annually, resulting in an osteoporotic fracture every 3 seconds Osteoporosis is estimated to affect 200 million women worldwide .Increase in osteoporosis cases results in a decline in economy with respect to health.

The burden of rheumatoid arthritis which is incurable autoimmune disorder increases with age and progression of disease. It's estimated to have an effect on about 4.9 million people across the key markets.

There were an estimated 9.0 million osteoporotic fractures in the year 2000. High number of osteoporotic fractures occurred in Europe (34.8%). Approximately twenty two million women and five and a half million men in the European Union had osteoporosis in 2010. In the United States about 8 million women and one to two million men had osteoporosis in 2010. This causes a large economic burden on the healthcare system due to costs of treatment, long-term disability, and loss of productivity in the working population. The European Union spends thirty seven billion euros per year in healthcare costs related to osteoporosis, and the USA spends an estimated nineteen billion US dollars annually for related healthcare costs. In the European Union, the number of osteoporotic fractures was estimated at 3.79 million in 2000. A baseline fracture is a very strong predictor of further fractures with twenty percent of patients experiencing a second fracture within the first year. Osteoporosis Drugs Market might reach 8.9 billion US dollars in 2020 due to High Incidence of Osteoporosis. The costs to health care services are already considerable and, on current trends, are predicted to double by 2050. The burden of rheumatoid arthritis which is incurable autoimmune disorder increases with age and progression of disease. It's estimated to have an effect on about 4.9 million people across the key markets. It is expensive to health care services and results in substantial economic and quality of life impairments for patients. Rheumatoid arthritis drug market will experience slight growth over 10 years as sales increase from $11.1 billion in 2011 to $15.2 billion in 2021 in the United States, France, Germany, Italy, Spain, the United Kingdom and Japan. It is predicted that the global osteoarthritis pain drugs market to grow at a CAGR of more than 8% by 2020. There are significant unmet medical needs in this market due to the chronic nature of osteoarthritis and the absence of effective curative therapies.

Market Study of osteoporosis and arthritis in USA | Europe | Middle East | Asia Pacific

USA: Osteoporosis drugs market in the US is projected to cross US$ 4 billion by 2021. In 2010, Medicare paid over $16 billion for direct costs of new fractures that year and the cost is projected to grow to over $25 billion by 2025.

Europe: Osteoporosis fractures cost about 32 billion euros per year in Europe. It is estimated that €240 billion is accounted for direct costs of musculoskeletal disorders each year in Europe

Middle East: The yearly cost of hip fractures in Iran is between 8 million and 16 million USD. The annual mortality rate per 100,000 people from rheumatoid arthritis in Middle East has increased by 21.6% since 1990, an average of 0.9% a year.

Asia Pacific: The Asia-Pacific osteoporosis market is set to grow from $4.5 billion in 2015 to $7.7 billion in 2022. In Australia, arthritis costs 24 billion Australian dollars each year in healthcare. In Thailand, the average arthritis cost is estimated to be US$2,682

About Pulsus:

- PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.
- Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.
- Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. We want our conferences, societies, associations and the technology communities and companies who participate in them, to include, encourage, and recognize people of all races, ethnicities, genders, ages, and abilities. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Pulsus Group Journals (www.pulsus.com)

- **30 years excellence in Medical publishing**
- **50+ journals in association with 20+ International medical and scientific societies**
- **Peer review publishing for Associations, Societies and Universities in Highly Indexed Reputed Journals**
- **Summary proceedings, custom publications and electronic publications.**

Exhibition and Sponsorship

- **An Exhibition will be held simultaneously with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new developments in the field of Rheumatology**

Additional benefits as follows:

- **Free exhibition booth for your association.**
- **Honorable guests for your presidents.**
- **Logo advertisement in the conference proceedings.**
- **Data sharing for your association.**

International Conference on

Osteoporosis, Arthritis and Musculoskeletal Disorders

DECEMBER 04-05, 2017

Madrid, Spain

Pulsus *Group takes pride in getting the endorsements of prestigious societies and medical research assosiations world wide.*

Market Analysis

Medical doctors, patients and health care providers consider the prevention of orthopedic diseases as an essential tool to improve the general health status of the population. Worldwide, osteoporosis causes more than 8.9 million fractures annually, resulting in an osteoporotic fracture every 3 seconds Osteoporosis is estimated to affect 200 million women worldwide .Increase in osteoporosis cases results in a decline in economy with respect to health. Hence it is necessary to start a global initiative for awareness, prevention and effective treatment of osteoporosis and arthritis.

Present survey depicts that Osteoporosis is estimated to affect 200 million women worldwide. About 1/10 of women aged 60, 1/5 of women aged 70, 2/5 of women aged 80 and 2/3 of women aged 90.

The burden of rheumatoid arthritis which is incurable autoimmune disorder increases with age and progression of disease. It's estimated to have an effect on about 4.9 million people across the key markets.

About City

Madrid is a city of awesome landmarks,The capital of Spain since 1562. It is the 3rd biggest city in the European Union, First is London and second is Berlin, and its metropolitan range is the 3rd -biggest in the European Union after Paris and London. The number of inhabitants in the city is right around 3.2 million with a metropolitan region populace of roughly 6.5 million,Madrid houses the home office of the World Tourism Organization (UNWTO), having a place with the SEGIB, United Nations Organization (UN), the Organization of the Public Interest Oversight Board (PIOB) and Iberia-American States (OEI). Madrid composes fairs, for example, FITUR, ARCO, Cibeles and the SIMO TCI Madrid Fashion Week. Madrid is home to La Liga football club mammoths Real Madrid, who play their home amusements at the Santiago Bernabéu. Their supporters are alluded to as Madridistas or Merengues (Meringues). Genuine Madrid was chosen as the best club of the twentieth century (FIFA Club of the Century), being the present pioneer of the European groups positioning and the most significant games group on the planet. Genuine have won a record 11 European Cups and 32 National titles.

Target Audience

- Osteology Students and Scientists
- Osteoporosis Researchers
- Pediatricians
- Orthopedists
- Osteology Faculty
- Rheumatologists
- Diagnostic Radiologists
- Physiotherapists
- Medical Colleges
- Orthopedic Associations and Societies
- Business Entrepreneurs
- Nurse practitioners
- Manufacturing Medical Devices Companies
- Endocrinologists

City Attractions

- Palacio Real de Madrid
- Plaza Mayor
- Almudena Cathedral
- Real Basilica de San Francisco el Grande
- Parque del Retiro
- Museo Nacional del Prado
- Puerta de Alcala
- Palacio de Comunicaciones
- Templo de Debod
