ABOUT US

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of 30 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

Ear, nose, and throat (ENT) devices are special equipment used for detection, treatment or surgical procedure of any condition related to the ear, nose or throat. They also refer to artificial materials and prosthetic devices used to restore any dysfunction of the ears, nose and throat or any problems with hearing, smelling or speaking.

Minimally invasive surgical techniques involve the use of advanced and thin ENT devices in nasal, ear, and throat. The popularity of these types of surgeries is increasing because they are associated with minimal tissue damage, a quicker recovery, less irritation, and less scarring. ENT instruments available in the market are endoscopes, hearing aids and implants, handheld surgical devices, balloon dilation devices for sinus, CO2 lasers, image-guided surgery systems, ear tubes, and voice prosthesis devices.

Global ENT devices market was valued at €12.37 billion in 2015, and is expected to reach €21.36 billion by 2022, growing at a CAGR of 8.1% during the forecast period.

TARGET AUDIENCE

- Otolaryngologist/ Otorhinolaryngologist
- ENT Surgeons
- Speech Pathologist
- Audiologist
- Oncologist
- ENT Faculty and Students
- Doctors and Scientists
- Universities, Associations and Societies
- Students and Research Scholars
- Business Delegates
- ENT Device Manufacturer
- R&D Companies
- Healthcare/Pharma Companies

REASONS TO ATTEND

- Develop Your Network
- Position Yourself as an Expert
- Meet Experts & Influencers Face to Face
- Gain Targeted Knowledge
- New Tips & Tactics
- Invest In Yourself
- Gain New Collaborations
- Present your Ideas and Work
- Be Inspired
- Travel, Explore and Have Fun!!

WHY TO ATTEND

- Lectures by the active investigators
- Keynote forums by renowned speakers
- Speaker forums
- Poster sessions on latest innovation in all the
- relevant areas
- Panel discussions and interactive sessions.
- Open innovation challenges
- Post-Doctoral career development session
- Young Research Forum
- B2B Meetings
- Global Networking with 50+ Countries
- Novel techniques to benefit your research
- Best platform for global business and
- networking opportunities
- Excellent platform to showcase the latest
- products in Otorhinolaryngology and
- affiliates

ABOUT VENUE

Paris is the capital and most populous city of France. Paris is located in north-central France, in a northern bending arc of the Seine whose crest includes two islands, Île Saint-Louis and the larger Île de la Cité, which form the oldest part from the city. Paris has a typical Western European oceanic climate which is affected by the North Atlantic Current. The general climate throughout the year is mild and moderately humid. Paris has been one of the main European centers of finance, diplomacy, commerce, fashion, science and the arts. Central Paris contains the city's most visited monuments, including Notre-Dame Cathedral and the Louvre as well as Sainte-Chapelle. Les Invalides, where Napoleon's tomb is located, and the Eiffel Tower are located on the left bank to the southwest of the center. For centuries, Paris has attracted artists from around the world, who come to the city to train and seek inspiration from its vast pool of artistic resources and galleries. As a result, Paris acquired a reputation as a "City of Art". Italian artists had a profound influence on the development of art in Paris in the 16th and 17th centuries, particularly in sculpture and reliefs. Painting and sculpture became the pride of the French monarchy, and the French royal family commissioned many Parisian artists to adorn their palaces during the era of French Baroque and Classicism.

Abstract submission opens: September 05, 2022 | **Registration opens:** September 05, 2022
