Market Analysis

Hospices & palliative care could be a sort of care that gives bolster and care for patients amid their final stage of life. It centers on fundamentally sick patient's torment and indications, and going to their otherworldly and passionate needs, with an approach to move forward the life of patients and their families related with life-threatening sickness. Hospice care can be advertised by independent hospices or through programs based in nursing homes, health care organization, outpatient clinics and healing centers. It can moreover be advertised within the nursing domestic, patient's domestic, a clinic, or private hospice office. Domestic hospice care is as a rule less costly than that given in clinics, nursing homes, or other regulation settings as the fetched of extra staff and profoundly prepared offices is circumvented when at domestic. In addition, patients incline toward hospice care as the understanding wants to spend the rest of life with cherished ones at domestic.

35 YEARS IN ASSESING THE IMPACT OF HEALTHCARE RESEARCH

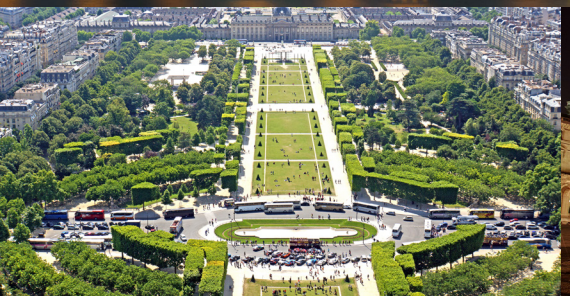

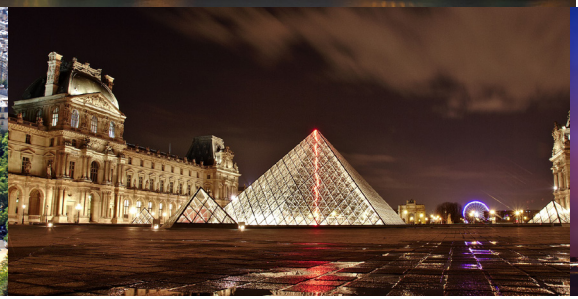

Paris is the capital city of France.

The French historic, political and economic capital, with a population of only 2.5 million is located in the northern part of France. One of the most beautiful cities in the world. Home to historical monuments such as Notre Dame, the Eiffel tower (320m), Bastille, Louvre and many more. Much of the city was re-designed by Haussmann in the 19th century. Paris has a population of more than 2.5 million people, and the city is divided into 20 “arrondissements” (districts) which are numbered 1 to 20.

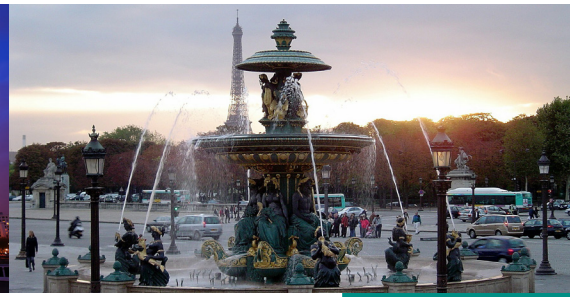

The river Seine divides the city into the Rive Gauche on the south and the Rive Droite on the north banks of the river. The river is still very busy with commercial barges transporting cargo in and out, there is also much. The historical name for the city is Parisii and given by the Gauls, however the Romans arrived in 52 B.C. and changed the name to Lutetia Many of the famous boulevards and city centre buildings where transformed by Haussmann and Napolean III (Charles Louis Napoléon Bonaparte). The streets where made much wider, places and squares where built and the buildings completely rebuilt. The atmosphere was totally transformed, space and perspective being main ingredient such as you can see on the Avenue des Champs-Élysées, whilst preserving historical buildings such as Notre Dame. This also influenced other French cities to change.

The night life is rich with the famous cabarets such as the Moulin Rouge, Lido and the Crazy Horse. Gastronomic restaurants offering cuisine of the finest are numerous and at all prices...
