International conference on parasitology and infectious diseases

SEPTEMBER 21-22, 2017 | San Antonio USA.

Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. San Antonio is all set for an amazing event as PULSUS proudly presents the "**International conference on parasitology and infectious diseases**" on **September 21-22, 2017.**

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Pediatrics from around the world to participate in the up -and -coming **parasitology and infectious diseases** 2017. The meeting for this year will revolve around the theme "Expanding the parasitology technologies and current research for medical; plant; veterinary proliferations to parasitology." thus relaying the most cutting edge findings in the field of **parasitology** Research.

The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach.

Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards

Parasitology and infectious diseases 2017

Organizing Committee http://parasitology.cmesociety.com/

Email: Parasitology@cmesocietyconferences.com; parasitology@immunologysociety.com

PULSUS is all set for an optimistic tone for the conferences to escalate medical & scientific know-how and create cognizance on the latest research findings & unfoldings in a manner that testifies not only brilliance but also transparency

Conference Highlights

- Protozoology of parasitology
- Aqua culture parasite and risk of human health.
- Agriculture and veterinary parasitology.
- Biochemistry and molecular biology of parasites.
- Helminthology of parasites.
- Medical parasitology and parasitic infections.
- Medical entomology and fisheries biology.
- Experimental Immunoparasitology
- Structural and marine parasitology.
- Vector-borne Diseases
- Plant microbe symbiosis
- Parasitic diseases and plant pathogens
- Approaches to control parasitic diseases
- Immunoparasitology
- Vaccines; drugs development and control measures
- Protozoan Parasites
- Ecological and Systematic Parasitology
- Sexually transmitted parasites
- Parasite ecology and population genetics
- Plant parasitic nematodes

Pulsus Group Conferences

300+ International Medical & Scientific Conferences, summits and events

Distinctive Features

- Attend and earn CE, CME & CPD credits.
- Learn about the latest developments in your field and aid your own growth.
- Meet your target audience & expand your B2B network.
- Get your research published in conference proceedings and renowned journals.
- Go live streaming on Youtube.
- Spread your knowledge. Conduct workshops, symposiums and exhibit your best products
- Call for Investors-Investors Meet

About Pulsus:

- PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.
- Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.
- Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. We want our conferences, societies, associations and the technology communities and companies who participate in them, to include, encourage, and recognize people of all races, ethnicities, genders, ages, and abilities. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Parasitology and infectious diseases 2017

International Conference on Parasitology and Infectious Diseases

SEPTEMBER 21-22, 2017 | SAN ANTONIO USA.

http://parasitology.cmesociety.com/

Email: Parasitology@cmesocietyconferences.com; parasitology@immunologysociety.com

Pulsus Group Journals (www.pulsus.com)

- **30 years excellence in Medical publishing**
- **50+ journals in association with 20+ International medical and scientific societies**
- **Peer review publishing for Associations, Societies and Universities in Highly Indexed Reputed Journals**
- **Summary proceedings, custom publications and electronic publications.**

Exhibition and Sponsorship

- **An Exhibition will be held simultaneously with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new developments in the field of Pediatrics**

Additional benefits as follows:

- **Free exhibition booth for your association.**
- **Honorable guests for your presidents.**
- **Logo advertisement in the conference proceedings.**
- **Data sharing for your association.**

Conference Agenda

CONFERENCE AT A GLANCE

Day-1	Day-2
08.00-09.00	**08.00-09.00**
Reception/Registration	Reception/Registration
09.00-09.15	**09.00-09.45**
Opening Ceremony	Introduction of Keynote Speakers
09.15-09.45	**09.15-09.45**
Keynote Talk 1	Keynote Talk 1
09.45-10.15	**09.45-10.15**
Keynote Talk 2	Keynote Talk 2
10.15-10.45	**10.15-10.45**
Keynote Talk 3	Workshop Session
Group Photo	Panel Discussions
Coffee/Tea Break 10.45-11.00 (Networking) in the Exhibit Hall	
11.00-12.40	**11.00-12.40**
5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)
Lunch Break 12.40-13.30	
13.30-15.30	**13.30-15.30**
6 Speakers (20 Mins Each)	6 Speakers (20 Mins Each)
Young Researcher Forum	Poster Sessions
Coffee/Tea Break 15.05-15.20 (Networking) in the Exhibit Hall	
15.20-17.00	**15.20-17.00**
5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)
Panel Discussions	Panel Discussions
Awards & Closing Ceremony	

NOTE: Program Shedule is subject to change with final allotment of the speaker slots

Important Dates

Abstract Submission Opens: December 01, 2016
Online Registration Opens: December 30, 2016
Early Bird Registration: February 18, 2017
On spot Registration: September 21, 2017

Registration & Timings

September 21, 2017 (08:00 am to 06:30 pm)
September 22, 2017 (08:00 am to 06:30 pm)
Group Photo Time: 09:00 am to 09:30 am

Venue : Hilton San Antonio Airport, 611 NW Loop 410, San Antonio, TX 78216, United States

Don't miss your smile in the conference group photo. Please make your presence at the conference. If you could not attend, please let us know

International conference on parasitology and infectious diseases

SEPTEMBER 21-22, 2017 | SAN ANTONIO, USA

Pulsus *Group takes pride in getting the endorsements of prestigious societies and medical research assosiations world wide.*

Market Analysis

The science deals with parasites and parasitism. Parasite is an organism that lives on host. Throughout history, people have coped with over 100 types of parasites affecting humans. Parasites have not, however, been thoroughly studied until the last few centuries. With his invention of the microscope in the late 1600s, the Dutch scientist Anton von Leeuwenhoek (1632–1723) was perhaps the first person to observe microscopic parasites.

Parasitic diseases are caused by virus; bacteria; fungal; nematodes and protozoans. Some parasitic diseases are caused by plant parasitic not include are ectoparasites like insects, mites, vertebrate, or other pests that affect plant health by consumption of plant tissues.

All most all the universities are carried out a research on parasitology and infectious diseases in USA. The major research areas are including medical parasitology and immunoparasitology which a large group of faculty focused on understanding the immune regulation of host with several parasitic diseases. cell and molecular; biochemical parasitology in which investigators study a range of topics including drug resistance in toxoplasmosis, gene expression in malaria, and the molecular biology and neurobiology of infective nematode larvae, evolutionary biology with projects which focus on the contact trematodes with their snail hosts and the population dynamics of parasites of farmed animals

About City

San Antonio is the seventh most populated city in the us. San Antonio officially called the city of San Antonio. And it is the second most populated city in the Texas with a population of 1,409,019. It was the fastest growing of the top 10 largest city in the us from 2000 to 2010, and the second from 1990 to 2000. The city straddles South Texas and Central Texas and is on the south-western corner of an urban mega region known as the Texas Triangle.

At the time of European encounter, Payaya Indians lived near the San Antonio River Valley in the San Pedro Springs area, calling the vicinity Yanaguana, meaning "refreshing waters". In 1691, a group of Spanish Catholic explorers and missionaries came upon the river and Payaya settlement on June 13, the feast day of St. Anthony of Padua. They named the place and river "San Antonio" in his honour.

Target Audience

- Specialists in Parasitology
- Academicians
- Parasitology Educators
- Disease Specialists
- Parasitology research groups
- Veterinary parasitologists
- Medical doctors
- Parasitology Societies & Organisations
- Health professionals
- Biomedical Researchers
- Research scholars
- Students

City Attractions

- The Alamo Mission in San Antonio
- The San Antonio River Walk
- Tower of the Americas
- San Antonio Missions National Historical Park
- The Spanish Governor's Palace
- Institute of Texan Cultures
- San Fernando Cathedral
- San Antonio Botanical Garden
- San Antonio for Kids: Zoos and Theme Parks
- San Antonio Museum of Art and the McNay Art Museum
