Scientific Program

11th International Conference on

Parkinson's and Movement Disorders

December 09-10, 2022 | Webinar

PARKINSON'S 2022

Scientific Program

Parkinson's 2022

December 09, 2022

Opening Ceremony 09.00-09.15

Keynote Forum

09:15-09:45

Title: Neurological Recovery following Traumatic Spinal Cord Injuries

Wagih El Masri | Keele University | UK

09:45-10:15

Title: Vibrotactile Coordinated reset Fingertip Stimulation – Treating Parkinson's with a Vibrating Glove

Peter Tass | Stanford University | USA

Networking & Refreshment Break 10:15-10:30

Sessions on: Parkinson disease | Stroke Rehabilitation and Recovery | Phytopharmaceuticals for Parkinson's disease

Session Chair: Wagih El Masri | Keele University | UK

10:30-10:50

Title: AUTOTAC is a novel Parkinson's disease therapeutic agent targeting alpha-synuclein aggregates to autophagic-lysosomal degradation

Jihoon Lee | Sanglah National Public Hospital | South Korea

10:50-11:10

Title: Assessment of the memory impairment among young and middle age COVID-19 convalescent persons

Yekaterina Hovhannisyan | Heratsi N1 University Hospital Complex | Armenia

11:10-11:30

Title: The Q58L Mutation of the Androgen Receptor (AR) gene as possible cause of Early Kennedy Disease

Marco Cassone | Hospital Major of Modica Nino Baglieri | Italy

11:30-11:50

Title: Fyn by localized RNA therapy to reduce Levodopa induced dyskinesias in Parkinson's Disease

Juan E Ferrario | Institute of Biosciences | Argentina

11:50-12:10

Title: The association between animal protein sources and risk of Parkinson's disease: a systematic review and dose-response meta-analysis

Hamed Mohamadi | Tehran University of Medical Sciences | Iran

Networking & Refreshment Break 12:10-12:30

Sessions on: Parkinson disease | Stroke Rehabilitation and Recovery | Phytopharmaceuticals for Parkinson's disease

Session Chair: Peter Tass | Stanford University | USA

12:30-12:50

Title: The effects of transcranial direct current stimulation on gait in patients with Parkinson's disease

Hamzeh Baharlouei | Aligarh Muslim University | Iran

12:50-13:10

Title: Muscle alterations in a Parkinson's disease animal model

Ana L. Albarracín | National University of Tucumán | Argentina

13:10-13:30	Title: Pilot study assessing the effect of Fascial Manipulation on fascial densifications and associated pain Kena McDermott | University of Bridgeport | USA
13:30-13:50	Title: Sagittal Plane Displacements of the Cervico- Thoracic Region and Their Relationship to Pain, Disability, Athletic Performance and Neurophysiological Measures: Implications Towards Patients with Movement Disorders Deed Harrison | Ideal Spine Health Centre | USA
13:50 - 14:10	Title: MicroRNA-based therapeutic approaches for Parkinson's disease Liliana Bernardino | University of Beira Interior | Portugal
	Video Presentation
14:10 - 14:30	Title: Facilitators and barriers to the delivery of palliative caretopatients with Parkinson's disease: a qualitative study of the perceptions and experiences of stakeholders using the socio-ecological model Yiping Chen | Shanxi Medical University | China
