MARKET ANALYSIS

Market size was exceeded USD 2.4 billion in 2019 and is predicted to register over 7% CAGR from 2020 to 2026.

The growing market size is associated to extend in number of neonatal healthcare facilities over the world together with rise in number of premature new-born in both the developed and developing economies. As per the recent statistic published by a hunt article, around 11% of the whole pregnancies end in premature or early deliveries. In the U.S. around 450,000 babies are born prematurely and in global among 15 million new births were premature. Hence, the new-born babies must be admitted in the HYPERLINK "https://pediatricnursing.pulsusconference.com/abstract-submission" neonatal health care facilities who provides the advance treatment and specialized nursing care. However, poor accessibility towards Pediatric and neonatal care within the economically developed countries are visiting a major market impeding factor. within the agricultural and distant areas, the pregnant women must travel long distance for deliveries, thereby resulting in increasing the gap for necessary and better treatment.

Hence, such conditions are accountable for prime death rate of the new-born. Moreover, poor infrastructure and poor-quality equipment are one among the key threats to the market growth.

ABOUT VENUE

Dubai, Gulf is the most populous city in the United Arab Emirates (UAE) and the capital of the Emirate of Dubai. Established in the 18th century, the city grew rapidly in the early 21st century with a focus on tourism and hospitality,

Once a small fishing village in the Arabian Gulf, Dubai is today one of the most cosmopolitan cities in the world. One of the seven emirates that make up the United Arab Emirates, the city is home to more than 200 nationalities and offers an unforgettable experience to all visitors. Whether it is by the banks of the Creek, or at the top of the Burj Khalifa, the world's tallest building, Dubai lives and breathes a sense of possibility and innovation. And with an unparalleled coastline, beautiful desert and magnificent cityscapes, memories are just waiting to be made here.

Dubai is a city of skyscrapers, ports, and beaches, where big business takes place alongside sun-seeking tourism. Because of its large expatriate population, it feels like a Middle Eastern melting pot, and the atmosphere is generally tolerant. Religious affiliations are not a prominent aspect of city life.
