Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

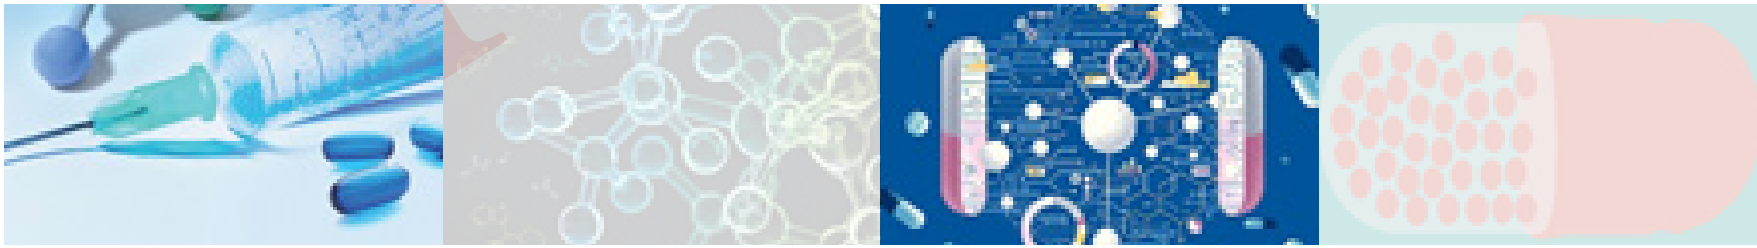

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from the USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

About Venue

France is one of Europe's largest countries. It is bordered by six countries other nations: Germany, Belgium and Luxembourg to the northeast, Switzerland and Italy to the southeast and Spain to the southwest. The United Kingdom borders France via the English Channel. The country is considered to be the gateway to Europe as there are several large international airports (two of these can be found in Paris), ferry terminals and the French rail service.

France is the most popular tourist destination in the world. There are many reasons why so many people enjoy visiting the diverse country, including the natural beauty, the amazing climate, outdoor recreational activities such as golf courses, art museums and galleries and so much more. There are many different activities that outline the history of the country which are enjoyable to visitors, especially considering its turbulent past.

Along with these things, France is enjoyed and well-known for its cuisine and wines. It is easy to say that French people love to cook and love their food. Meals in France are joyous, long events with families drawn close together for conversation. The typical French meal offers three to four courses which includes cheese before dessert. All meals are accompanied by freshly baked breads and wine. Popular foods in France include chicken in a red wine sauce, known as Coq au vin and sea scallops cooked in butter, or Coquilles Saint-Jacques. The food that is actually on the menu can also be quite diverse and vary according to the region of the country in which you are located.

People in France are courteous and very formal. People in the country are also known for being chic, taking great pride in their personal appearance and clothing. Some countries view France as an arrogant country because of these characteristics, although those in the country attribute this to simply being fashionable and cautious of the appearance.

Research and development:

Research and development expenditure (% of GDP) in France was reported at 2.2 % in 2018, according to the World Bank collection of development indicators, compiled from officially recognized sources. France - Research and development expenditure (% of GDP) - actual values, historical data, forecasts and projections were sourced from the World Bank on July of 2021.

Gross domestic expenditures on research and development (R&D), expressed as a percent of GDP. They include both capital and current expenditures in the four main sectors: Business enterprise, Government, Higher education and Private non-profit. R&D covers basic research, applied research, and experimental development.

Tourism and conferences:

Tourism in France directly contributed 79.8 billion euros to gross domestic product (GDP) in 2013, 30% of which comes from international visitors and 70% from domestic tourism spending. The total contribution of travel and tourism represents 9.7% of GDP and supports 2.9 million jobs (10.9% of employment) in the country. Tourism contributes significantly to the balance of payments.

France was visited by 89 million total foreign tourists in 2018, the most of any country in the world. This statistic has been rejected by Ritals, which reports in one of their videos that France is counting the number of nights spent in the country more than number of number of arrivals since there is no official definition on which figure to declare; in addition Ritals proposed the thesis that official country statistics also count tourists visiting Paris and Disneyland Paris twice.[3] In fact, it is only in third place, and not in first place, in the income produced by tourism due to shorter visits and nights spent which drop to 137 million, placing France in fifth place of the countries most visited by non-residents, behind the States United States, Spain, Italy, the United Kingdom and China.[4] More than 20% of tourists have in fact spent less than half of what they did in United States of America.[5] France has 45 sites inscribed in the UNESCO's World Heritage List and features cities or sites of high cultural interest (Paris being the foremost, but also Loire Valley, Toulouse, Strasbourg, Bordeaux, Lyon and others), beaches and seaside resorts, ski resorts, as well as rural regions that many enjoy for their beauty and tranquillity (green tourism). Small and picturesque French villages of quality heritage (such as Collonges-la-Rouge, Locronan, or Montsoreau) are promoted through the association Les Plus Beaux Villages de France (literally "The Most Beautiful Villages of France"). The "Remarkable Gardens" label is a list of the over two hundred gardens classified by the Ministry of Culture. This label is intended to protect and promote remarkable gardens and parks.
