PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. London is all set for an amazing event as PULSUS proudly presents the "Global summit on Nanomedicine and Pharmaceutics" slated on September 21– 22, 2020 at London, UK.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Nanomedicine and Pharmaceutics from around the world to participate in the upcoming "Pharmaceutics 2020". The meeting for this year will revolve around the theme "**Explore the latest innovations in Pharmaceutical Sciences**" thus relaying the most cutting-edge findings in the field of Nanomedicine and Pharmaceutics Research. The two-day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Conference Highlights

- Nanomedicine
- Pharmaceutical Nanotechnology
- Applied Pharmaceutical Science
- Pharmaceutical microbiology
- Nanomedicine and Biomedical Application
- Nuclear Pharmacy
- Pharmacokinetics and Pharmacodynamics
- Nanorobotics
- Emerging technologies in Material Science
- Tissue engineering
- Drug Delivery
- Computational studies in Nanoparticles
- Pharmaceutics technology
- Polymer Nanoparticles
- Nano Drug Systems
- Nanotoxicology
- Future of pharmacy

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

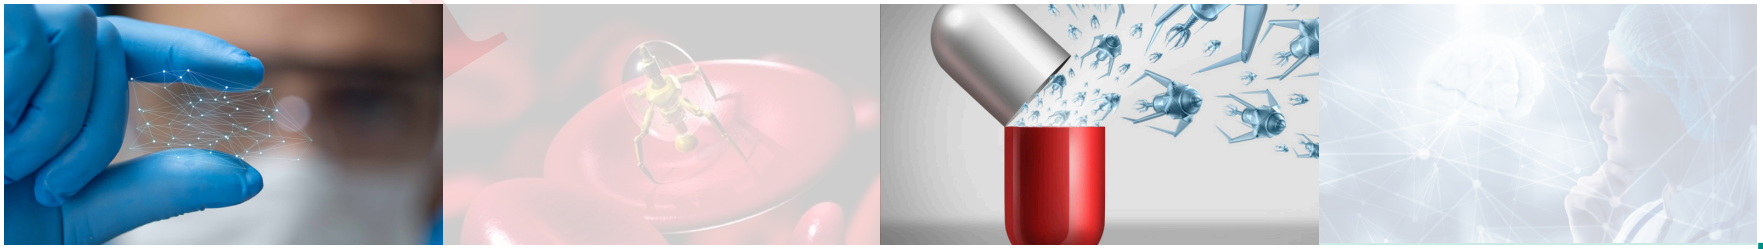

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

The pharmaceutical industry plays a significant role in developing medications and vaccines to reduce the incidence of diseases, to treat diseases and enhance the quality of life of people. The industry's main contribution is engaging in technological advancements through innovative research to meet the complex healthcare demands of populations. The global market for pharmaceuticals is expected to grow at an annual rate of 4.9% to $1.3 trillion by 2020. The U.S pharma market is expected to grow to $320 billion by 2020. The Japan market, the third largest pharmaceutical market, has a forecasted growth of 3% while the U.S has an expected growth rate of 5.6%.

Key Players in the Industry

Pharma companies experienced modest revenue gains in the past year with rising prices, main patent losses for some pharma companies as well as a decline in M&A activity. Merck & Co is currently ranked No.1 in R&D, although it is fourth in sales. Pfizer remains the top industry prescription sales leader.

Revenues and R&D of Top Pharma Companies

Key trends in the industry

Several major trends are reshaping the pharmaceutical industry and may cause challenges for pharma companies

- Healthcare budgets are experiencing greater pressure due to the rising incidence of chronic diseases
- Increase in demand for medicines in emerging economies compared to industrialized economies
- Innovative medicines are influencing regulators to become more cautious about approving new medicines.
- Drug-pricing concerns will worsen

One of the challenges that pharma companies are facing is developing a smart multi-channel strategy to use the appropriate medium to deliver promotions and the right information to customers. Pharma companies that had negative publicity in the past must fix their reputational damage. Dubious promotional practices, exploitation of market monopolies and drug pricing in developing countries has affected their public trust and must be mended.

Overregulation is an issue that pharma companies are constantly facing. It is perceived as a threat with pricing pressures and possible changes in the U.S pharmaceutical market.

Market Analysis

Opportunities

The pharmaceutical industry looks forward to several opportunities in the future. More than 220 drugs are expected to be introduced in the pharma market by 2021. Most of the drug manufacturing will be outsourced. Pharma companies have opportunities to develop new businesses and increase market share by outsourcing manufacturers. As pharma companies lose sales due to increase in generic drugs, the companies can create portfolios of generic pharmaceutical ingredients (APIs) and present the generic APIs to customers. Outsourcing is expected to increase and provide pharma companies with $105.0 billion in 2021.

A survey showed that pharma CEOs choose innovation as an area to capitalize on for opportunities in the future. Pharma companies are more driven to be innovative than most sectors. Human capital is a second area of opportunity that pharma companies will like to focus on

Target Audience

- Nanoengineers
- Nanomedicine and Pharmaceutical students, scientists, professors
- Nanomedicine and pharmaceutics researchers
- Healthcare associations and societies
- Business entrepreneurs
- Training institutes
- Surgeons
- Pharmacists
- Bioinformaticians
- Curious minds

About City and Venue

PULSUS
WWW.PULSUSCONFERENCE.COM

London is the capital and largest city of England and the United Kingdom Standing on the River Thames in the south-east of England, at the head of its 50-mile (80 km) estuary leading to the North Sea, London has been a major settlement for two millennia. Londinium was founded by the Romans. The City of London, London's ancient core − an area of just 1.12 square miles and colloquially known as the Square Mile − retains boundaries that follow closely its medieval limits. The City of Westminster is also an Inner London borough holding city status. Greater London is governed by the Mayor of London and the London Assembly.

London is considered to be one of the world's most important global cities and has been termed the world's most powerful, most desirable, most influential, most visited, most expensive, innovative, sustainable, most investment friendly, and most popular for work city in the world. London exerts a considerable impact upon the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. London ranks 26 out of 300 major cities for economic performance. It is one of the largest financial centres and has either the fifth or sixth largest metropolitan area. It is the most-visited city as measured by international arrivals and has the busiest city airport system as measured by passenger traffic. It is the leading investment destination, hosting more International retailer and ultra-high net worth individuals than any other city.
