# INVITAITON

## PHARMACEUTICS 2023

Welcome and warmest wishes!

On behalf of the Pulsus Conferences and Pharmaceutics Community, it is my great pleasure to welcome all the participants and guests to the "6th International Conference on Pharmaceutics and Drug Discovery".

Pharmaceutics 2023 will be the 6th in the series of successful cosponsored scientific conferences of our Societies.

The conference revolves around the theme of discussing the scope and prospects of Pharmaceutics and Drug Discovery and how they can influence the current situation and beyond.

As with all past congresses, Pharmaceutics 2023 fosters collaborations among pharmaceutical scientists and technical programs proven the quality of life throughout the world. Our outstanding technical program truly represents collaborations among scientists from at least three different countries. The result of such collaborations can only bring improvements in technical development and a better quality of life for all people.

Pharmaceutics 2023 intends to discuss the advancements and innovations that are made in the domain of pharmaceutical sector and discuss about the improvements that are being made and which have to be made in the domain of Pharmaceutics.

Pharmaceutics Conference 2023 is three days of oral and poster sessions, keynotes, social events, and workshops in the beautiful city of Valencia, Spain from August 03-05, 2023.

All the members and staff of the Pharmaceutics Conference 2023 Organizing Committee had spent many hours preparing for this Edition to make it the best possible.

We are excited about the outcome and hope that you will find this Upcoming Edition fruitful enjoyable and worthwhile.

We look forward to seeing you in Valencia, Spain!!!

Regards,

# MARKET ANALYSIS

Due to the pandemic and an increased demand for solutions to end one of the economically worst years in the past decade, the Pharmaceutic 2023 sector's marketing evolution has significantly increased this fiscal year.

At a CAGR of 14.2%, the global market for nanomedicine is expected to grow from $221.12 billion in 2021 to $252.50 billion in 2022. The businesses that started producing after meeting the exponentially growing demand during the COVID-19 pandemic in 2020 are primarily to blame for the shift in the growth trend. At a CAGR of 13.2%, the market is expected to reach $414.97 billion in 2026.

In addition to vaccines, other medical products have contributed in equal measure to this commercial giant's increase in revenue. The Moderna is a start-up that was only founded in 2010, and the fact that they have been able to achieve the level of revenue that they have improved over the course of the period of time is a testament to their continuous hard work and the commitment that they have shown to the society. It is reported that they have generated a total revenue of 45 million dollars based solely on the sales of medicinal products, compared to their sales of 42 million dollars in the previous year.

## ABOUT VENUE

With 791,413 residents, Valencia is the autonomous community of Valencia's capital and the third-most populous municipality in Spain. Additionally, it serves as the province's capital. One of the major urban areas on the European side of the Mediterranean Sea, the larger urban area that also includes the municipalities in the surrounding area has approximately 1.6 million people living there. On the east coast of the Iberian Peninsula, near the Gulf of Valencia and north of the Albufera lagoon, it can be found on the Turia's banks. In 138 BC, Valencia was established as a Roman colony. Islamic rule and assimilation followed in the eighth 100 years, along with the presentation of new water system frameworks and harvests. In 1238, Aragonese Christians conquered the city, making it the Kingdom of Valencia's capital. By the end of the 15th century, the city had become one of the largest cities in Europe thanks to trade with the rest of the Iberian Peninsula, Italian ports, and other locations in the Mediterranean Sea. The expulsion of the moriscos in 1609 caused a crisis in the city's economic activity, which had already been negatively impacted by the Atlantic Ocean's expansion into global trade networks to the detriment of the Mediterranean and the unpredictability brought about by Barbary piracy throughout the 16th century. The city turned into a significant silk-producing focus in the eighteenth 100 years. From 1936 to 1937, during the Spanish Civil War, the city served as the unintentional seat of the Spanish government. The Feria Valencia Convention and Exhibition Centre and the Palau de congressos (Conference Palace) are two of the city's many venues for trade shows and conventions. Additionally, the city has several five-star hotels for business travelers. The Falles (Les Falles), a local festival held in March, paella valenciana, traditional Valencian ceramics, traditional dress craftsmanship, and the architecture of the City of Arts and Sciences, designed by Santiago Calatrava and Félix Candela, all contribute to the city's international fame. The official languages of Valencia are Spanish and Valencian. In the actual city, Spanish is currently the language of choice. Along the coast of Alicante are the traditionally Valencian-speaking territories of the Valencian Community, including Valencia itself and its metropolitan area, where the Valencian language is less widely spoken and read.
