Pharmacology 2018 focuses on the importance to understand drugs and how they can affect human physiology. It is with better understanding of Pharmacology one can know the right dosage and dosage forms of drugs. More research in pharmacology deals with identifying and responding to drug interactions and its side effects along with its mechanism of action, its therapeutic index and thereby treat accordingly. More intensive study with the interaction between drug and its therapeutic effect helps to identify the properties of ideal drugs.

The Conference provides the research work of pharmacology and therapeutics from various scientific backgrounds and the same can be perceived by pharmacologists, scientists and students. Pharmacology 2018 brings unique platform for scientists, researchers, academicians, professors and students to share their knowledge and views also presenting research about latest pharmacological activities of drugs and chemical properties. PULSUS provides an opportunistic environment and vibrant podium through these auspicious events.

Abu Dhabi, the capital of the United Arab Emirates (UAE). It mainly focuses on oil exports and commerce which is reflected by the skylines and the modern architectures with shopping mega centres such as Abu Dhabi and Marina malls. The vast Sheikh Zayed Grand Mosque has a capacity for 41,000 worshipers. Abu Dhabi City, the capital of the emirate and the country, occupies one of these islands. al-Ayn is the second most important city which lies in eastern part, which grew from a small village within the Buraymi Oasis. The slight rainfall collected in the desolation creates a beautiful arc of oases named as al-Liwa. Abu Dhabi possesses 90 percent of the UAE's approximately 100 billion barrels of oil reserves and 60 percent of its significant gas reserves.
