PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. Rome is all set for an amazing event as PULSUS proudly presents the "2nd World Congress on Anatomy and Physiology slated on October 14-15, 2019 at Rome, Italy.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Physiology from around the world to participate in the upcoming Physiology 2019. The meeting for this year will revolve around the theme "**An Overview on Advanced Anatomy and Physiology**" thus relaying the most cutting-edge findings in the field of Physiology. The two-day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Conference Highlights

- Research Based Anatomy and Physiology
- Modern Anatomy and Physiology
- 3D-Human Visualization: Platform for Anatomy and Diseases
- Biomechanics and Biomedical Implants
- Forensic Medicine and Anatomy Research
- Anatomy and Physiology of Various Biological Systems
- Objectives of Physiology
- Applied Physiology and Neurobiology
- Experimental Physiology and Pathophysiology
- Physiological Impairment and Function Disability
- Pathophysiology of Pre and Post Amputation
- Exercise Physiology and Rehabilitation
- Sports Physiology
- Engineering Physiology: Human Physiology in Ergonomics

About PULSUS

PULSUS
WWW.PULSUSCONFERENCE.COM

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

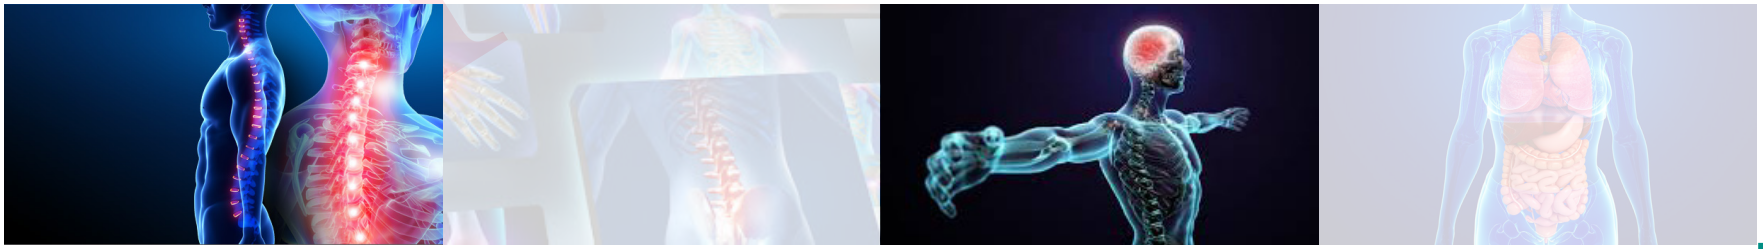

Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Market Analysis

PULSUS
WWW.PULSUSCONFERENCE.COM

Physiology 2019 is eagerly waiting in addressing all the participants, scholars, researchers and industrial expects to make the gathering more successful. The International symposiums, B2B meetings, International workshops will also be organized to discuss the specific topics in the field of Anatomy & Physiology. It is the platform for all the scholars, researchers, scientist, organizations and industries to exhibit the recent advancements in the field of Anatomy and Physiology. This conference provides scope and experience for all eminent participants to grab the advancements in the field of Anatomy and Physiology and to expose their research work across the global network and by exploring recent trends such as Artificial Pancreas, DNA data storage, Genome editing method-CRISPR, Human Head Transplants, Young blood antiaging and many more.

Target Audience

- Anatomical and Physiological Students, Scientists
- Anatomy and Physiology Researchers
- Anatomy and Physiology Faculty
- Healthcare and Medical Professionals
- Anatomy and Physiology Associations and Societies
- Business Entrepreneurs
- Training Institutes
- Medical Devices Manufacturing Companies
- Ergonomics related Companies

Why to attend:

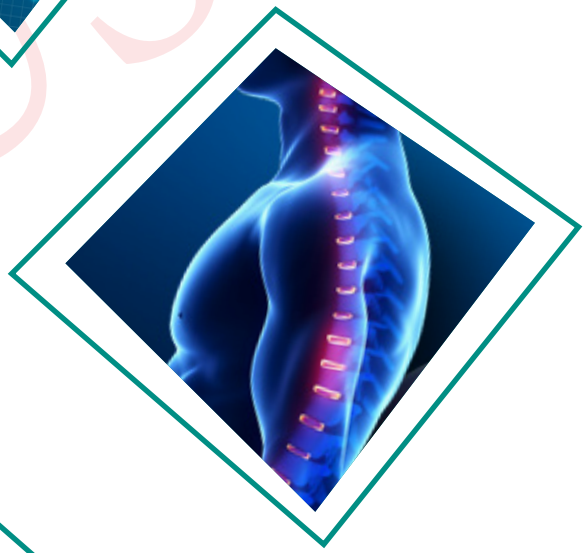

- With members from around the world focused on learning about human anatomy and physiology and its advances; this is the best opportunity to reach the largest assemblage of participants from the human anatomy and physiology community. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new drug developments, and receive name recognition at this 2-days event. World-renowned speakers, the most recent techniques, developments, and the newest updates in anatomy and physiology are hallmarks of this conference. The attendees can find
- Exclusive Sessions and Panel discussions on latest innovations in Immunology and Biomedical sciences
- Lectures by the active Investigators
- Keynote forums by Renowned Immunologists
- Speaker Forum
- Poster Sessions on latest Innovation in all the relevant Areas
- Open Innovation Challenges
- Poster Sessions on every career stage
- Young Research Forum
- Post-Doctoral Career Development Session
- B2B Meetings
- Global Networking with 50+ Countries
- Novel techniques to benefit your research
- Best platform for Global business and Networking opportunities
- Meet the editors of refereed journals, Society and Association members across the Globe
- Excellent platform to showcase the latest products in Immunology and affiliates

Recent Trends

- Medical 3D Printing
- Artificial Pancreas
- Gene therapy for inherited diseases
- Smartwatches for early detection of heart attacks
- Battery-powered germ-killers
- Fingertip surgery
- Health check chair
- Genome editing method-CRISPR
- Surgical Robot
- Vocal biomarkers
- Healthcare education through Augmented Reality
- Human Head Transplants
- Generation of functional organs from stem cells
- Young blood antiaging
- Bioabsorbable Stents
- Electronic Aspirin
- Liquid biopsies
- Internet of Medical Things (IoMT)
- LDL Cholesterol Drugs
- DNA data storage

About City and Venue

PULSUS
WWW.PULSUSCONFERENCE.COM

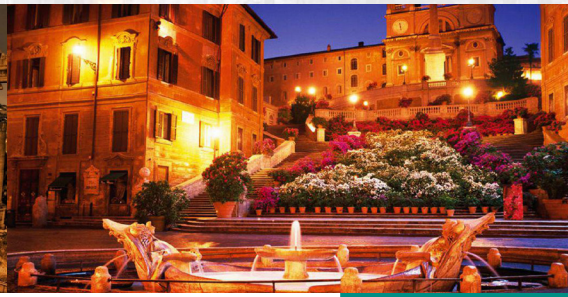

Rome is the capital of Italy and a special comune . Rome also serves as the capital of the Lazio region. With 2,876,051 residents in 1,285 km2 (496.1 sq. m).It is also the country's most populated comune. It is the fourth-most populous city in the European Union by population within city limits. The Vatican City is an independent country inside the city boundaries of Rome, the only existing example of a country within a city: for this reason Rome has been often defined as capital of two states. Rome is a great walking city, and surprisingly doable. Toss your coin, then cross the Via del Corso toward the Pantheon. This building appears suddenly before you amid the hustle and bustle of modern-day Rome. The space inside the Pantheon is a perfect sphere, and the poured-concrete coffered dome is still the largest ever built.

Rome is a city of villages, each with its own personality. One gem is Trastevere, west of the Tiber. It's a maze of winding streets and tiny squares and the place to catch the feel of old Rome — with locals chatting through open windows and the most-photographed laundry in the world. It is said that Rome is like an outdoor theater and being there like starring in your own movie. So, go ahead, answer your casting call. Make your movie. But beware: You will want a sequel.
