Webinar | June 28-29, 2021

"Recent Advancements and Researches in Anatomy & Physiology"

WHO SHOULD ATTEND

Cardiologists, Nephrologists, Neurologists, Oncologists, Endocrinologists, Immunologists, Pharmacologists, Biotechnologists, Researchers, Nurse, Practitioners, Scientists, Medical Students, Industry Professionals, Infection and Quality Control Clinicians, Biomedical Researchers and others.

ABOUT US

On behalf of Pulsus, Physiology 2021 takes immense pleasure in welcoming all the participants from across the globe to attend “4th International Conference on Anatomy and Physiology (Webinar)” scheduled on June 28-29, 2021. The Objective of the webinar is to reach the Advancement in the Field of Anatomy and Physiology by the global gathering and meeting of peoples from various diversities to share the knowledge by paper presentations, poster presentation and by the delivery of speech & lectures or as a Delegate in the research forum.

Physiology 2021 is eagerly waiting in addressing all the participants, scholars, researchers and industrial expects to make the gathering more successful. It is the platform for all the scholars, researchers, scientist, organizations and industries to exhibit the recent advancements in the field of Anatomy and Physiology. This webinar provides scope and experience for all eminent participants to grab the advancements in the field of Anatomy and Physiology and to expose their research work across the global network and by exploring recent trends such as Artificial Pancreas, DNA data storage, Genome editing method-CRISPR, Human Head Transplants, Young blood antiaging and many more.

CALL FOR ABSTRACTS

Don't miss this chance to present the recent researches on Anatomy and Physiology at "Physiology 2021 (Webinar)" on June 28-29, 2021.

It is an opportunity for the young talents to network in a formal setting with the plenary speakers and top scientists in the field.

OBJECTIVES

After participating in this meeting, attendees should be able to

- Discuss emerging research prospects
- Discuss and apply recent research findings
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions

"***Poster and oral slots are available***"

Participation in these sessions is upon submission of an abstract (see details below). Applicants will be selected based on the quality of their abstract.

PHYSIOLOGY 2021 OUTLOOK

- Explore the best in Cutting edge Research
- Change to learn beyond your field of Interest
- Keynote sessions by world’s most eminent and distinguished researchers
- Webinar Participation Inspires, Rejuvenate and Energize participants
- Learning and Knowledge in a single package
- Speaker’s representation from 30+ Countries
- Webinar | 2 Days

TOPICS TO BE DISCUSSED

1. Research Based Anatomy and Physiology
2. Anatomical Techniques
3. Biomechanics and Biomedical Implants
4. Modern Anatomy and Physiology
5. Anatomy and Physiology of Various Biological Systems
6. Clincal/Surgical Anatomy
7. Digital Anatomy - Platform for Human 3D Visualization
8. Forensic Anatomy
9. Evolutionary Anatomy
10. Aims of Physiology
11. Experimental and Applied Physiology
12. Pathophysiology
13. Exercise, Sports Physiology and Rehabilitation Physiotherapies
14. Ergonomics
15. Physiological Impairments and Function Disabilities

IMPORTANT DATES

Abstract submission opens on March 01, 2021
Registration opens on March 01, 2021
Early bird registration ends on April 30, 2021

Cancellation Policy:
