E-mail: physiotherapy@pulsusmeet.com

Pulsus conferences insist participants from all over the world clock in "2nd World Congress on Physiotherapy and Musculoskeletal Medicine" during February 01-02, 2021 in Paris, France. The theme of the conference this year is "Progressive scientific inspect & technology over Physiotherapy and Musculoskeletal Medicine" which guarantees an outstanding science program supporting many esteemed speakers who are tormented by intuition

Through providing access to ongoing training and networking opportunities, the conference aims to improve the practice of advancing the profession for the benefit of the people and the individual patients they represent.

Physiotherapy is a treatment which improves the movement of functions during injury, illness, pain and disability. It is concerned with movement and maximizing the physical activities over bones, joints, muscles and ligaments.

Join us for Physiotherapy 2021, where global scientists, physiotherapist and care providers come together to discuss the latest research findings, hypotheses and insights that will help bring the world closer to breakthroughs in Physiotherapy

Regards
Physiotherapy 2021
Email: physiotherapycongress@pulsusmeet.com

PULSUS is all set for an optimistic tone for the conferences to escalate medical & scientific know-how and create cognizance on the latest research findings & unfoldings in a manner that testifies not only brilliance but also transparency

Conference Highlights

- Physiotherapy
- Cardiovascular & pulmonary physiotherapy
- Geriatric physiotherapy Integumentary physiotherapy Orthopaedic physiotherapy Physiotherapy in Sports-Related Injuries
- Palliative Care Physiotherapy
- Yoga & Fitness in Physical therapy Advancement in Physiotherapy Neurological Physiotherapy Hydrotherapy in Physiotherapy Chiropractic Care
- Psycho-Physiotherapy
- Artificial Physiotherapy Methods Physiotherapy Techniques and Exercises
- Women's Health Physiotherapy Musculoskeletal Medicine
- Physical Rehabilitation Rehabilitation and Pain Management
- Neurological Rehabilitation Acupuncture & techniques Rheumatology Regenerative Medicine
- Physical Ergonomics
- Rheumatology Regenerative Medicine
- Physical Ergonomics

Artificial Physiotherapy methods

300+ International Medical & Scientific Conferences, summits and events

Distinctive Features

• Attend and earn CE, CME & CPD credits.
• Learn about the latest developments in your field and aid your own growth.
• Meet your target audience & expand your B2B network.
• Get your research published in conference proceedings and renowned journals.
• Go live streaming on Youtube.
• Spread your knowledge. Conduct workshops, symposiums and exhibit your best products
• Call for Investors-Investors Meet

PULSUS is providing an invaluable channel for scientists and researchers to exchange
the ideas and research by creating a forum for discussing the possibilities of future
collaborations between universities,

About Pulsus:

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

• Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.

• Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. We want our conferences, societies, associations and the technology communities and companies who participate in them, to include, encourage, and recognize people of all races, ethnicities, genders, ages, and abilities. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Pulsus Group Journals (www.pulsus.com)

• 30 years excellence in Medical publishing

• 50+ journals in association with 20+ International medical and scientific societies

• Peer review publishing for Associations, Societies and Universities in Highly Indexed Reputed Journals

• Summary proceedings, custom publications and electronic publications.

Exhibition and Sponsorship

• An Exhibition will be held simultaneously with the Conference.

The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new developments in the field of Pediatrics

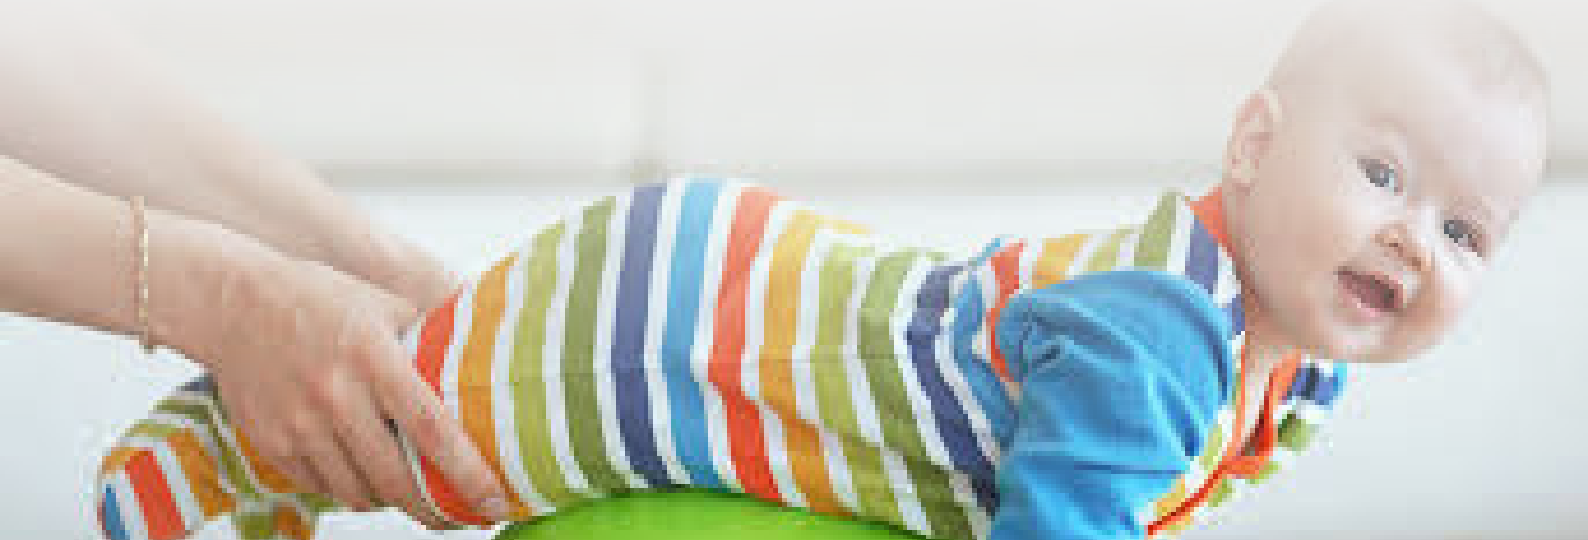

Additional benefits as follows:

• Free exhibition booth for your association.

• Honorable guests for your presidents.

• Logo advertisement in the conference proceedings.

• Data sharing for your association.

Day-1	Day-2
08.00-09.00	08.00-09.00
Reception/Registration	Reception/Registration
09.00-09.15	09.00-09.45
Opening Ceremony	Introduction of Keynote Speakers
09.15-09.45	09.15-09.45

Market Analysis:

Physiotherapy has existed from thousands of years as a form of treatment for dysfunctions and disabilities. It is becoming a key treatment in the rehabilitation of patients who are suffering from debilitating conditions as a result of injury or diseases. Physiotherapy maintains, restore and optimise health and function throughout the lifespan. Physiotherapy helps in maximising quality of life by using the principles of promotion, prevention, treatment/intervention, habilitation and rehabilitation. This encompasses physical, psychological, emotional, and social wellbeing. There are a lot of people suffering from spinal pain, neck pain, back pain and sports related injuries where we an allied health professional service, so we need a good physiotherapist Physiotherapy has developed from simple massage therapies to a complex assortment of therapies. Now, it has multiple and specialized applications

Physiotherapy Services Market: Overview

Physiotherapy also known as physical therapy is provided by physiotherapist to the patients suffering from disabilities and impairments of mobility. Physiotherapists are healthcare professionals who are efficient in diagnosis and treatment of aforementioned medical conditions. Physical therapy also involves an interaction between patient and physiotherapist in order to access and diagnose the potential movement in the patient. It also helps in setting certain goals for early and effective physiotherapy. Quality of life coupled with functional ability of various body organs are enhanced by availing physiotherapy.

Importance and Scope:The global physiotherapy equipment markets poised to reach $19,786.3 million by 2019 from $14,240.0 million in 2014, at a CAGR of 6.8% from 2014 to 2019.Factors such as growing base of geriatric population, inclination towards adopting active lifestyle habits, increasing penetration of physiotherapy services, and favourable healthcare reforms are driving the growth of the physiotherapy equipment market. In addition, high-potential emerging markets and technological advancements such as virtual reality, rehabilitation robots, exoskeletons, and implanted devices for pain management are offering robust growth opportunities to the market players. However, uncertain reimbursement scenario in the U.S. and economic downturn in European countries are hindering the growth of this market.

The physiotherapy equipment market is segmented on the basis of products, applications, end users, and geographies. Based on the type of products, the physiotherapy equipment market is segmented into equipment and accessories. The equipment segment is further categorized into hydrotherapy, cryotherapy, continuous passive motion (CPM), electric stimulation, heat therapy, therapeutic exercises, ultrasound, and others (laser therapy, wax therapy, and traction). The accessories segment is further bifurcated into orthoses and other assistive devices (walkers, wheelchairs, and crutches). Equipment accounted for the largest share ~65% of the global physiotherapy market in 2014.

There are a lot of people suffering from spinal pain, neck pain, back pain and sports related injuries where we an allied health professional service, so we need a good physiotherapist.

On the basis of applications, the physiotherapy equipment market is broadly classified into cardiovascular and pulmonary, musculoskeletal, neurology, paediatric, and others (sports, women health, and palliative care). Musculoskeletal is the largest and fastest-growing segment of the physiotherapy equipment market, by application. The large share of this market can be attributed to growing incidences of cardiovascular problems, neurological disorders, and growing number of injuries and accidents.

The major player of physiotherapy in the market are AmeriCare Physical Therapy, Meier & Marsh Physical Therapy, Rehab Alternatives, FullMotion Physical Therapy, Elam Sports Oahu and Minsu's Healing Oasis.

City Attraction:

Paris is the capital city of France, located on the northern central part of the country. It is the city of love and most attractive cities in the world. The railway system of France is the second most large in Western Europe. France has a major railway, highway, 464 airports, among which Charles de Gaulle Airport which is situated in Paris, is the biggest and busiest air terminal of the nation connecting Paris with every single significant city around the world. Paris has the second busiest metro system in Europe. Every year, Paris receives 24.5 million visitors, with largest number of visitors every year. It consists of a population 2.5 million is located in the northern part of France.

Pulsus Group takes pride in getting the endorsements of prestigious societies and medical research assosiations world wide.

Target Audience

- Physiotherapists
- Physicians
- Medical Directors
- Physiotherapy related professionals
- Physiotherapy specialists
- Medical representatives
- Certified Yoga therapist
- Yoga professionals

City Attractions

Notre Dame
Eiffel tower (320m)
Bastille
Louvre
Place des Vosges
Moulin Rouge
Conciergerie
Pantheon
Pere Lachaise Cemetery
Disneyland Paris
