Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. Singapore is all set for an amazing event as PULSUS proudly presents the "International Conference on Polymer Chemistry" slated on August 5-6, 2019 at Singapore.

Polymer chemistry 2019 give you an opportunity to present keynote talks, Oral presentation, exhibitions and discussion in learning, making new connection and to gather with world-class educators, researchers, Young researchers all over the world. We hope that you will make use of this opportunity to join us at our conference and make it successful by your participation. The two-day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Conference Highlights

- Polymerization
- Recent Advances in Polymer Chemistry
- Application of Polymers
- Polymer Engineering
- Polymer Physics
- Polymer structure
- Functional Polymers
- Synthetic Polymer
- Polymerization Catalysis
- Polymer Nano particle
- Biodegradable Polymers
- Non-biodegradable Polymers

About City and Venue

Singapore has been described as a playground for the rich, and it's true that the small city-state does have a certain sheen of wealth. But Singapore offers more than just high-end shopping malls, luxury hotels, and fine dining. There is also a vibrant history and diverse ethnic quarters to discover, along with many family-friendly attractions and lovely public spaces that make visiting this slightly futuristic city worthwhile. Singapore's progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change. The country includes the island of Singapore and 58 or so smaller islands. Because of its efficient and determined government, Singapore has become a flourishing country that excels in trade and tourism and is a model to developing nations. The capital city, also called Singapore, covers about a third of the area of the main island.
