30 YEARS OF EXCELLENCE IN MEDICAL PUBLISHING

Osaka was specifically located in the Kansai region of Japan. After Tokyo Osaka was the second largest metropolitan area at daytime and third largest population at the night time in Japan. In the early period, it was called as Naniwa. It was historically named as "Nation's kitchen" and at the time of "Edo period ", it was mainly famous for serving the rice. Here the famous university for the probiotics, prebiotics and nutrition was present and it can help to educate the students based on nutrition, food science, food safety and so on. So, Osaka is the nice place to conduct Probiotics 2018 where, Osaka City University plays a major role. The first theme park that was built in Asia was the Universal Studios Japan (USJ), which was in Osaka-Japan. The most beautiful aquarium was Osaka Aquarium in which the marine life has been displayed in 15 tanks. Recently in 2013 the new visiting place had been added and the visiting area starts from the 8th floor and ends at the last.
