ABOUT US

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.v

With a legacy of 30 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

The pharmacovigilance market was esteemed at roughly USD 5.6 billion of every 2020, and it is relied upon to arrive at 8.6 billion by 2026, enlisting a CAGR of almost 7.54% during the gauge time frame, 2021-2026. The developing danger of COVID-19 disease is antagonistically influencing networks, ventures, organizations, and lives all over the planet. Clinical observing and security detailing are fundamental as a few potential treatments are being utilized in the treatment of Covid initiated contamination. The drugs like Lopinavir/ Ritonavir, hydroxychloroquine (HCQ), and Remdesivir are being reused to treat Covid contamination. The possibilities of associated antagonistic medication responses for some with these drugs have as of now been submitted to the singular case security reports data set named VigiBase, oversaw by Uppsala Monitoring Center (UMC). Subsequently, the rising occurrence of antagonistic medication responses is expected to speed up the interest for pharmacovigilance administrations in the midst of pandemics.

TARGET AUDIENCE

- Pharmacovigilance Scientists
- Pharmacovigilance Associations and Societies
- Business Entrepreneurs
- Training Institutes
- Software Developing Companies
- Manufacturing Medical Devices Companies
- Data Management Companies

WHO SHOULD ATTEND

- Pharmacovigilance Students, Scientists
- Pharmacovigilance Researchers
- Pharmacovigilance Faculty Medical Colleges
- Pharmacovigilance Associations and Societies
- Business Entrepreneurs
- Training Institutes
- Software Developing Companies
- Manufacturing Medical Devices Companies
- Data Management Companies
- Pharma companies
- Health Care professionals

WHY TO ATTEND

With participants from round the arena targeted on studying approximately Pharmacovigilance and its advances; that is your exceptional possibility to attain the biggest assemblage of members from the Pharmacovigilance community. Conduct presentations, distribute facts, meet with contemporary and capability scientists, make a dash with new drug developments, and get hold of named popularity at this 2-days event. World-Renowned Speakers, the maximum current techniques, developments, and the most up-to-date updates in Pharmacovigilance are Hallmarks of this Conference.

ABOUT VENUE

Italy is located in southern Europe on the Apennine Peninsula. Its distinct shape, resembling a kicking boot, makes it easy to recognize it on maps or even from space. The Adriatic Sea borders the peninsula in the east, the Sea of Sicily in the south.

The Ionian Sea in the southeast, the Ligurian Sea and the Tyrrhenian Sea in the west, all those seas are parts of the Mediterranean Sea. Italy has international borders with Austria, France, the Holy See (Vatican City), San Marino, Slovenia, and Switzerland.

It also shares maritime borders with Albania, Algeria, Croatia, Greece, Libya, Malta, Montenegro, Spain, and Tunisia. Two of the largest Mediterranean islands belong to Italy, Sardinia in the west and Sicily in the south. The country covers an area of 301,318 km² (116,340 sq. mi.), compared, it is about 80% the size of Japan or slightly larger than the U.S. state of Arizona.

Italy has a population of more than 60.4 million people (in 2019), the capital and largest city is Rome (Italian: Roma). Other major cities are Florence, Milan, Naples and Venice. Spoken language is (only) Italian. The country is known for its food, wine, ice cream, art, antique architecture, gardens, opera, fast expensive cars, fashion, film, football, the Mafia, and “Dolce Vita”, a life of exuberant pleasure and luxury.
