Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders or rub elbows with pioneers across the globe. Rome is all set for an amazing event as PULSUS proudly presents the "Global Recycling Summit" slated on July 22-23, 2019 at Rome.

Recycling 2019 give you an opportunity to present keynote talks, Oral presentation, exhibitions and discussion in learning, making new connection and to gather with world-class educators, researchers, Young researchers all over the world. We hope that you will make use of this opportunity to join us at our conference and make it successful by your participation. The two-day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards
Recycling 2019
Organizing Committee

Conference Highlights

Waste Management Techniques
Reduce Reuse and Recycle
Solid Waste Management
Sustainable Energy policy
Paper Recycling
Waste Water Recycling
Plastic Recycling
Rubber recycling
Metal Recycling
Textile Recycling
Food waste recycling
E-Wastes Recycling
Industrial Waste Recycling
Chemical Waste Recycling
Agriculture Waste Recycling
Organic Waste Recycling
Waste Treatment Technologies
Waste to Energy
Recycling Market
Circulatory Economy

Conference Tentative Agenda

University of Naples, Italy

Supporting Journals

Selected contributions will be published in following supporting international Journals:

- **Journal of Environmental Chemistry and Toxicology**
- **Journal of Environmental Geology**
- **Journal of Environmental Microbiology**
- **Journal of Marine Microbiology**

About City and Venue

Rome has a whole lot to recommend itself beautiful buildings, a warm climate, incredible food, and thousands of years of history to explore. In fact, there are so many things to occupy your time in Rome on an Italy, you may have difficulty paring down your list to the essentials. From visits to famous landmarks to iconic food experiences to strolls through art galleries.

Rome was founded in 753 BC by Romulus. Rome is 4,336 m (14,453 ft) above sea level and located inland about 27 kilometres (17 miles) from the Tyrrhenian Sea. Rome is known as the "Eternal city" and "Caput Mundi," coming from Latin and meaning capital of the world. Trajan’s Column in Rome is 128 feet high. The sculptural frieze that wraps around the column is approximately 655 feet in length. Rome became the capital city of a unified Italy in 1870 after taking the title from Florence. Concrete was a Roman invention used on many structures such as the Pantheon, the Colosseum and the Roman Forum, which are still standing today thanks to the development of Roman cement and concrete. The Romans first began building with concrete over 2,100 years ago and used it throughout the Mediterranean basin in everything from aqueducts and buildings to bridges and monuments. SPQR stands for "Senatus Populusque Romanus" and means "The Senate and the people of Rome." The symbol is still seen all over the city today.

Important Dates

Abstract submission opens: **January 30, 2019**
Registration opens: **February 18, 2019**
Early bird registration: **March 29, 2019**
On spot registration: **July 22, 2019**
