9th International Conference on

RHEUMATIC DISEASES

SEPTEMBER 20-21, 2017

Dublin, Ireland

PULSUS is all set for an optimistic tone for the conferences to escalate medical & scientific know-how and create cognizance on the latest research findings & unfoldings in a manner that testifies not only brilliance but also transparency

Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Dublin is all set for an amazing event as PULSUS proudly presents the "**Rheumatic diseases 2017** " on **September 20-21, 2017.**

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Rheumatologist from around the world to participate in the up -and -coming Clinical Rheumatic Diseases 2017. The meeting for this year will revolve around the theme "Emerging Interventions in Rheumatology & Rheumatic Diseases." thus relaying the most cutting edge findings in the field of Rheumotologic Research.

The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach.

Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Regards

Conference Highlights

- Moderen Rheumatology
- Rheumatic Diseases
- Soft tissue rheumatism
- Ankylosing Spondylitis
- Gout
- Arthritis
- Osteoarthritis
- Rheumatoid Arthritis
- Polymyositis
- Orthoplasty
- Orthopaedic Trauma
- Arthroscopic Surgery
- Treatment of Rheumatic Diseases
- Orthopedic Diagnostic Techniques
- Degenerative Disorders
- Tuberculosis of Bones and Joints
- Bone marrow

Pulsus Group Conferences

300+ International Medical & Scientific Conferences, summits and events

Distinctive Features

- Attend and earn CE, CME & CPD credits.
- Learn about the latest developments in your field and aid your own growth.
- Meet your target audience & expand your B2B network.
- Get your research published in conference proceedings and renowned journals.
- Go live streaming on Youtube.
- Spread your knowledge. Conduct workshops, symposiums and exhibit your best products
- Call for Investors-Investors Meet

About Pulsus:

- PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, Pulsus Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancementde la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.
- Pulsus Conferences explore the future by connecting minds and spreading brilliance at Pulsus Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Pulsus group is closely associated with globally renowned academic and research societies.
- Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. We want our conferences, societies, associations and the technology communities and companies who participate in them, to include, encourage, and recognize people of all races, ethnicities, genders, ages, and abilities. Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Rheumatic Diseases

SEPTEMBER 20-21, 2017

Dublin, Ireland

Pulsus *Group takes pride in getting the endorsements of prestigious societies and medical research assosiations world wide.*

Market Analysis

The market of rheumatology therapeutics suffers restraints due to the entry of biosimilars despite healthy sales and the positive impact of the expanding geriatric population. The entry of biosimilars will slow the growth of the rheumatology therapeutics market. During the period from 2012 to 2018, the annual growth rate of the rheumatology therapeutics market is expected to fall. The opportunities that the market has are a growing aging population which leads to an increase in the number of joint problems, a rise in the disposable income of individuals, and increased concerns regarding health.

The market can be segmented on the basis of drugs used in rheumatology therapeutics into Enbrel (etanercept), Humira (adalimumab) and Remicade (infliximab) Enbrel (etanercept). Humira (adalimumab) and Remicade (infliximab) are the major shareholders of the drugs used in rheumatology therapeutics, out of which Enbrel and Humira have the majority of the market share in the U.S. while Remicade holds its roots in the European Union. Pfizer's Celebrex, a major drug used for the treatment of osteoarthritis, saw high sales during 2010-11 and is expected to be demanded more during the period from 2012 to 2016.

The report covers Rheumatoid Arthritis (RA), Osteoarthritis (OA), Systemic Lupus Erythematosus (SLE) and gout, as these are most prevalent forms of rheumatologic disease. The global rheumatology therapeutics market was estimated to be worth €16.24 billion in 2011, having grown at a Compound Annual Growth Rate (CAGR) of 9.4% from 2005, and is forecast to grow at a CAGR of 4.8% to €22.6 billion by 2018.

About City

Dublin was voted Europe's fourth most popular city break destination, behind London, Paris and Rome and is one of the friendliest capital cities in the world. Dublin's elegant Georgian architecture makes it one of Europe's most attractive capitals. Dublin is a relatively small and accessible city, small enough and safe enough to get around on foot, while the Luas tram system and the suburban rail system, the DART, provide excellent transport links throughout the city.

Dublin was founded by Vikings during the 9th Century, who established a key maritime centre. The city and port continued to prosper over the centuries and with English dominance came the city's attractive 17th Century architecture. By the 18th Century, Dublin was second only to London as one of the largest cities of the British Empire. However by the start of the 20th Century, Dublin entered a long decline, which lasted until the economic turn around of the 1980s saw the Celtic Tiger breathe new life into Ireland's capital.

Target Audience

- Rheumatology Researchers
- Rheumatology Faculty
- Rheumatology Associations and Societies
- Medical Colleges
- Rheumatology Students, Scientists
- Training Institutes
- Software developing companies
- Manufacturing Medical Devices Companies
- Data Management Companies

City Attractions

- National Museum of Ireland Decorative Arts and History
- Dun Laoghaire Community Tourist Office
- Patrick Donald Photography Gallery
- Temple Bar Gallery and Studios
- Marlay Demesne
- Tolka Valley Park
- Balbriggan Beach
- Kilmainham Gaol
- Dublin Castle
